

LIFE AQUA SERIES AQUASCAPING CONTEST COMBO

PRODUCT INTRODUCTION

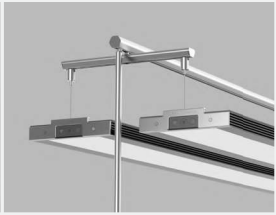

Aquascaping Contest Combo is a combination of Prime Pro and/or Prime Pro EX lighting system. The Prime Pro and Prime Pro EX Series are equipped with RGB monochrome LED and 3 in 1 RGB LED technologies, which provide natural light beams and stable color temperature. With wireless grouping sync control, the lighting system can be easily fine adjusted to your desired settings, making it perfect to use in aquascaping contests. Monochromatic light (Prime Pro Series) allows aquatic plants to capture photons that are closer to natural sunlight through underwater mixing technologies. On the other hand, the ultra-bright function of the Prime Pro EX Series ensures that your plants receive optimal light, allowing them to thrive and grow, also providing excellent illumination for capturing stunning photos of your scape. User can select any combo set for their unique Aquascaping.

WE BRING YOUR PASSIONS TO LIFE
