

WiFi FISH FEEDER

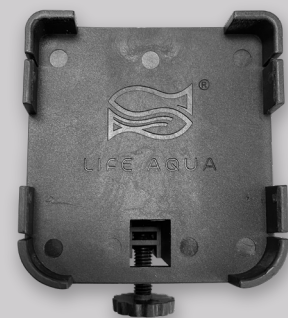

WiFi SMART FEEDER

MaxLiving SERIES

PRODUCT INTRODUCTION

MaxLiving SERIES - Smart Fish Feeder is an automatic fish food feeding system. Users can enjoy the fun of feeding fish and simplifies your life at the same time. Manual and automatic scheduling control can be selected by the user to meet different needs. Through the time control system for regular and quantitative feeding, users can avoid forgetting to feed fish due to working hours or vacations. Life Aqua combines technology and nature to lead the aquarium into the future.
