

LIFE AQUA SERIES MASTER PRO II LED LIGHTING

PRODUCT INTRODUCTION

Life Aqua - "Master Pro 2" is the is a master-class aquarium luminaire. Absorbing the experience of the first version of Master Pro, we use RGB LEDs to simulate natural sunlight to allow plants to grow healthily, and through the unique RGB ratio, the natural colors of objects are vividly displayed. In this second edition, we even combine nature and IoT technologies, allowing users not only to use the default natural color scenes we adjusted, but also to make adjustments (color and brightness) to suit your tank design.

In addition, with a freely set schedule, you can simulate sunrise, sunset and natural colors for the water tank. This version also retains the adjustable brightness ripple light function to make your perfect water tank more perfect. Life Aqua "Master Pro 2" leads natural planted aquarium into future.

THERE'S NOTHING BETTER.

SPECIFICATION

Model	MXL580-02
Size	Lighting unit: W58× D21.5 × H4.5 (cm) Power unit: W19.6 × D6.3 × H4 (cm)
Weight	Lighting unit: 5 kg Power unit: 1 kg
Adaptor Input voltage	AC 100-240V 50/60 Hz
Power	Approx. 80 W
Illuminance	Approx. 500 - 2800 Lx (For 6 adjustable levels)
Adjustable Level	6 levels
Color temperature	7500K (Natural), 7000K (Vivid), 11000K (Plant Growth) ± 500K
Number of LED light	120 (RGB LED) + 1 (White LED)
LED lifetime	Over 30,000 hours (subject to operating environment)
Ingress protection	IP67
