

WiFi Mini Router

**2.4 GHz Mini WiFi Repeater
WR01**

MaxLiving SERIES

PRODUCT INTRODUCTION

WR01 is a professional mini WiFi repeater, which combines the mini WiFi router and WiFi smart bridge technology. Plug-and-play mini WiFi router and WiFi bridge technology make it easy for users to expand their home routers and use with Life Aqua's smart products (Including the Lighting, Smart Plug, Fish Feeder and Smart IR). This mini WiFi router allows users to separate their IoT products from other smart mobile devices (such as smart phone and laptop..). Unlike the traditional WiFi routers, this WiFi routers can connect over 20 IoT devices at the same time with long-lasting stability. Last but not least, the size of this mini WiFi router is much smaller than the other mini router. With half of the bank card size (44 x 44 x 14 mm), user can easily place this mini WiFi routers anywhere. MaxLiving Series - WiFi mini Router can help you experience the beautiful life brought by the Internet of Things with Life Aqua.
