

Revision date: 01/16/2020

**SECTION 1: Identification****1.1 Product identifier**Trade name **Volatile Solvent****Other means of identification**

Product code(s): 1811 Formula code: 02-090130

**1.2 Relevant identified uses**

Relevant identified uses General use

**1.3 Details of the supplier of the safety data sheet**Master Blend Indiana LLC • 4345 W 96th St. • Indianapolis, IN 46268 • United States •  
Telephone: 800.525.9644 • e-mail: info@masterblend.net • Website: masterblend.net**1.4 Emergency telephone number**Chem-Tel **1.800.255.3924** (USA & Canada) **1.813.248.0585** (International)**SECTION 2: Hazard(s) identification****2.1 Classification of the substance or mixture****Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)**

| Annex | - | Hazard class and category | -      | Hazard statement code(s) |
|-------|---|---------------------------|--------|--------------------------|
| B.6   |   | flammable liquid          | Cat. 4 | (Flam. Liq. 4) H227      |
| A.10  |   | aspiration hazard         | Cat. 1 | (Asp. Tox. 1) H304       |

**Remarks**

For full text of H-phrases: see SECTION 16.

**The most important adverse physicochemical, human health and environmental effects**

The product is combustible and can be ignited by potential ignition sources.

**2.2 Label elements****Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)****Signal word** **DANGER****Pictograms**

GHS08

**Hazard statements**H227 Combustible liquid.  
H304 May be fatal if swallowed and enters airways.**Precautionary statements****Precautionary statements - prevention**Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
Keep container tightly closed.  
Wear protective gloves/eye protection/face protection.**Precautionary statements - response**

Revision date: 01/16/2020

IF SWALLOWED: Immediately call a POISON CENTER/doctor/physician.  
Do NOT induce vomiting.  
In case of fire: Use sand, carbon dioxide or powder extinguisher to extinguish.

**Precautionary statements - disposal**

Dispose of contents/container to industrial combustion plant.

**Hazardous ingredients for labelling**

C12-C14 isoalkanes

**2.3 Other hazards**

This material is combustible, but will not ignite readily.

**SECTION 3: Composition/information on ingredients****3.1 Substances**

not relevant (mixture)

**3.2 Mixtures****3.2.1**

| Name of substance  | Identifier           | Wt% |
|--------------------|----------------------|-----|
| C12-C14 isoalkanes | CAS No<br>68551-19-9 | 100 |

For full text of abbreviations: see SECTION 16.

**SECTION 4: First-aid measures****4.1 Description of first-aid measures****General notes**

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

**Following inhalation**

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

**Following skin contact**

Wash with plenty of soap and water.

**Following eye contact**

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

**Following ingestion**

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

**4.2 Most important symptoms and effects, both acute and delayed**

Symptoms and effects are not known to date.

**4.3 Indication of any immediate medical attention and special treatment needed**

none

**SECTION 5: Fire-fighting measures****5.1 Extinguishing media****Suitable extinguishing media**

water spray, alcohol resistant foam, BC-powder, carbon dioxide (CO<sub>2</sub>)

**Unsuitable extinguishing media**

water jet

**5.2 Special hazards arising from the substance or mixture**

In case of insufficient ventilation and/or in use, may form flammable/explosive vapor-air mixture. Solvent vapors are heavier than air and may spread along floors. Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures.

**Hazardous combustion products**

nitrogen oxides (NO<sub>x</sub>), carbon monoxide (CO), carbon dioxide (CO<sub>2</sub>)

**5.3 Advice for firefighters**

In case of fire and/or explosion do not breathe fumes. Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

**SECTION 6: Accidental release measures****6.1 Personal precautions, protective equipment and emergency procedures****For non-emergency personnel**

Remove persons to safety.

**For emergency responders**

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

**6.2 Environmental precautions**

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose it.

**6.3 Methods and material for containment and cleaning up****Advices on how to contain a spill**

Covering of drains.

**Advices on how to clean up a spill**

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage (sawdust, kieselgur (diatomite), sand, universal binder).

**Appropriate containment techniques**

Use of adsorbent materials.

**Other information relating to spills and releases**

Place in appropriate containers for disposal. Ventilate affected area.

**6.4 Reference to other sections**

Hazardous combustion products: see section 5. Personal precautions: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

**SECTION 7: Handling and storage****7.1 Precautions for safe handling****Recommendations****Measures to prevent fire as well as aerosol and dust generation**

Use local and general ventilation. Avoidance of ignition sources. Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge. Use only in well-ventilated areas. Due to danger of explosion, prevent leakage of vapours into cellars, flues and ditches. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools.

**Warning**

Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Vapors are heavier than air, spread along floors and form explosive mixtures with air. Vapors may form explosive mixtures with air.

**Advice on general occupational hygiene**

Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

**7.2 Conditions for safe storage, including any incompatibilities****Managing of associated risks****• Explosive atmospheres**

Keep container tightly closed and in a well-ventilated place. Use local and general ventilation. Keep cool. Protect from sunlight.

**• Flammability hazards**

Keep away from sources of ignition - No smoking. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharge. Protect from sunlight.

**Incompatible substances or mixtures**

Observe compatible storage of chemicals.

**Consideration of other advice****Ventilation requirements**

Use local and general ventilation. Ground/bond container and receiving equipment.

**7.3 Specific end use(s)**

See section 16 for a general overview.

**SECTION 8: Exposure controls/personal protection****8.1 Control parameters****National limit values****Occupational exposure limit values (Workplace Exposure Limits)****Relevant DNELs/DMELs/PNECs and other threshold levels**

No data available.

Revision date: 01/16/2020

## 8.2 Exposure controls

### Appropriate engineering controls

General ventilation.

### Individual protection measures (personal protective equipment)

#### Eye/face protection

Wear eye/face protection.

#### Skin protection

##### • hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

##### • other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

#### Respiratory protection

In case of inadequate ventilation wear respiratory protection.

#### Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

|                |                |
|----------------|----------------|
| Physical state | liquid         |
| Color          | different      |
| Odor           | characteristic |

#### Other physical and chemical parameters

|   |                      |
|---|----------------------|
| pH (value)                              | not determined       |
| Melting point/freezing point            | <-114 °C at 1 atm    |
| Initial boiling point and boiling range | 189 °C at 1 atm      |
| Flash point                             | 61.1 °C at 1 atm     |
| Evaporation rate                        | not determined       |
| Flammability (solid, gas)               | not relevant (fluid) |
| Explosive limits                        | not determined       |
| Vapor pressure                          | not determined       |
| Density                                 | not determined       |
| Relative density                        | not determined       |
| Solubility(ies)                         | not determined       |
| Auto-ignition temperature               | not determined       |
| Viscosity                               | not determined       |
| Explosive properties                    | none                 |
| Oxidizing properties                    | none                 |

**SECTION 10: Stability and reactivity****10.1 Reactivity**

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials". The mixture contains reactive substance(s): risk of ignition

**• if heated**

risk of ignition

**10.2 Chemical stability**

See below "Conditions to avoid".

**10.3 Possibility of hazardous reactions**

No known hazardous reactions.

**10.4 Conditions to avoid**

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

**Hints to prevent fire or explosion**

Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

**Physical stresses which might result in a hazardous situation and have to be avoided**

strong shocks

**10.5 Incompatible materials**

There is no additional information.

**10.6 Hazardous decomposition products**

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

**SECTION 11: Toxicological information****11.1 Information on toxicological effects**

Test data are not available for the complete mixture.

**Classification procedure**

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

**Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)****Acute toxicity**

Shall not be classified as acutely toxic.

**Skin corrosion/irritation**

Shall not be classified as corrosive/irritant to skin.

**Serious eye damage/eye irritation**

Shall not be classified as seriously damaging to the eye or eye irritant.

**Respiratory or skin sensitization**

Shall not be classified as a respiratory or skin sensitizer.

**Summary of evaluation of the CMR properties**

Shall not be classified as germ cell mutagenic, carcinogenic nor as a reproductive toxicant.

**Carcinogenicity**

- |  |                                    |
|--|------------------------------------|
| • National Toxicology Program (United States): | none of the ingredients are listed |
| • IARC Monographs                              | none of the ingredients are listed |

**Specific target organ toxicity (STOT)**

Shall not be classified as a specific target organ toxicant.

**Aspiration hazard**

May be fatal if swallowed and enters airways.

**SECTION 12: Ecological information****12.1 Toxicity**

Shall not be classified as hazardous to the aquatic environment.

**Biodegradation**

The relevant substances of the mixture are readily biodegradable.

**12.2 Persistence and degradability**

Data are not available.

**12.3 Bioaccumulative potential**

Data are not available.

**12.4 Mobility in soil**

Data are not available.

**12.5 Results of PBT and vPvB assessment**

Data are not available.

**12.6 Other adverse effects**

Data are not available.

**SECTION 13: Disposal considerations****13.1 Waste treatment methods****Waste treatment-relevant information**

Solvent reclamation/regeneration.

**Sewage disposal-relevant information**

Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.

**Waste treatment of containers/packages**

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

**Remarks**

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

**SECTION 14: Transport information**

|             |                            |  |
|-------------|----------------------------|--|
| <b>14.1</b> | UN number                  | (not subject to transport regulations)                                       |
| <b>14.2</b> | UN proper shipping name    | not relevant   |
| <b>14.3</b> | Transport hazard class(es) |  |
|             | Class                      | -  |
| <b>14.4</b> | Packing group              | not relevant   |
| <b>14.5</b> | Environmental hazards      | none (non-environmentally hazardous acc. to the dangerous goods regulations) |

Revision date: 01/16/2020

- 14.6** Special precautions for user  
There is no additional information.
- 14.7** Transport in bulk according to Annex II of MARPOL and the IBC Code  
The cargo is not intended to be carried in bulk.

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations specific for the product in question

#### National regulations (United States)

##### Industry or sector specific available guidance(s)

##### **NPCA-HMIS® III**

Hazardous Materials Identification System (American Coatings Association)

| Category                             | Rating | Description   |
|--------------------------------------|--------|---|
| <b>Chronic</b>                       | /      | None.   |
| <b>Health</b>                        | 0      | No significant risk to health.  |
| <b>Flammability</b>                  | 2      | Material that must be moderately heated or exposed to relatively high ambient temperatures before ignition can occur.                                       |
| <b>Physical hazard</b>               | 0      | Material that is normally stable, even under fire conditions, and will not react with water, polymerize, decompose, condense, or self-react. Non-explosive. |
| <b>Personal protective equipment</b> | -      |   |

##### **NFPA® 704**

National Fire Protection Association: Standard System for the Identification of the Hazards of Materials for Emergency Response (United States)

| Category              | Degree of hazard | Description   |
|-----------------------|------------------|---|
| <b>Flammability</b>   | 2                | Material that must be moderately heated or exposed to relatively high ambient temperatures before ignition can occur. |
| <b>Health</b>         | 0                | Material that, under emergency conditions, would offer no hazard beyond that of ordinary combustible material.        |
| <b>Instability</b>    | 0                | Material that is normally stable, even under fire conditions.   |
| <b>Special hazard</b> |                  |   |

#### Relevant European Union (EU) safety, health and environmental provisions

##### **Classification according to GHS (1272/2008/EC, CLP)**

##### **Hazard class**

aspiration hazard

##### **Category Hazard class and category**

1 (Asp. Tox. 1)

**SECTION 16: Other information, including date of preparation or last revision****Abbreviations and acronyms**

| Abbr.            | Descriptions of used abbreviations  |
|------------------|---|
| CAS              | Chemical Abstracts Service (service that maintains the most comprehensive list of chemical substances)  |
| CLP              | Regulation (EC) No 1272/2008 on classification, labeling and packaging of substances and mixtures   |
| CMR              | Carcinogenic, Mutagenic or toxic for Reproduction   |
| DMEL             | Derived Minimal Effect Level  |
| DNEL             | Derived No-Effect Level   |
| GHS              | "Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations                                       |
| HMIS             | Hazardous Materials Identification System   |
| IARC Mono-graphs | IARC Monographs on the Evaluation of Carcinogenic Risks to Humans   |
