

THE NEW “F” SERIES

Don't stop at what appears before your eyes. There is much more than you can make out at first glance.

You can see so much more if you look carefully.

The new “F” series buttons solve many of the limitations of the traditional omega sockets.

Classic look but with a new core for better technical and aesthetic characteristics.

Synthetic material ring, customizable shapes, surprising finishes and special marking are all new for the inner elements of a button that might at first glance might seem like nothing new.

Available socket models FX (ø 8), F1 (ø 9), F3 (ø 12.5) and F4 (ø 14).
