

Description: **ROBINHOOD CANOPY RANGEHOOD 90CM WITH LED, ANGLED TOP**

Model Number: **RWB3CL9SS**

Typical design

Features and benefits

o Dimmable LED lights

Now you can select exactly the right level of light for cooking, and then dim it down for mood lighting when it's time to dine. Dimmable LED lighting provides outstanding illumination of the cooking area and operates on its own switch, so you can have the light without the fan running.

o Capacitive touch switch

Backlit touch-screen switches with a green LED display are easy to view and use. Cleaning is a simple wipe over because the switch panel is completely flat and smooth.

o Sleek design adds style to your kitchen

Precisely manufactured in stainless steel and black glass, this sleek canopy rangehood has been designed to provide years of tireless service. As a key feature in your kitchen, its clean lines are compatible with most styles of interior design.

o Automatic filter cleaning reminder

You can set a 'filter clean' reminder function to 20, 40, 60, 80 or 100 hours. An LED display and beep alert will tell you when it's time to clean the micromesh filters. If you are recirculating, this reminder function will tell you when it's time to replace the charcoal filters.

o Three-speed extraction with timer function

Powerful extraction fan can be set to high, medium or low to match the type of cooking you're doing. You can also set the timer function to automatically turn the rangehood off after 10 minutes – very handy when it's time to serve.

o Recirculation if you can't duct

In situations where ducting isn't possible, this rangehood can be fitted with charcoal filters that effectively cleanse the air before returning it to the kitchen.

o Large grease catchments filters

Three multi-layered micromesh filters effectively trap grease. They're simple to remove and are easily maintained with a regular clean in the dishwasher.

o Turns off if the worst happens

This rangehood incorporates a thermal overload function that senses extreme heat and disconnects power to the motor temporarily. If you have a cooking disaster, and something catches fire, it automatically switches off to prevent flames and sparks being sucked into the ducting or ceiling.

Specifications

Technical data:

Motor	330 W, 3 speed centrifugal
Lights	2x LED lamps
Power consumption	350 W @240 V, 50 Hz
Gauge of Steel	0.6mm
Type of steel	430 Stainless Steel
Finish of steel	Brushed finish, number 4
Tested to EMC AS/NZS	CISPR14:2001
Electrical approval AS/NZS	60335.2.31:2004
Performance tested	IEC61591
Filter type	Stainless steel filter
Length of power cord	1850mm
Ducting outlet	150mm diameter- top ducting
Recirculation option	Yes

Gross weight: 19kg

Carton Volume: 0.255m³

Carton dimensions: 960 x 470 x 565mm

Product dimensions: 898 x 505 x 105mm

Chimney dimensions: 300 x 260 x 500mm

Performance data:

Power level 1	470m ³ /hr	Noise @ Power level 1	56 dB
Power level 2	690m ³ /hr	Noise @ Power level 2	65 dB
Power level 3	840m ³ /hr	Noise @ Power level 3	70 dB
