

Description: **ROBINHOOD ISLAND CANOPY**
Model Number: **RIE3CL9SS**

Typical design

Features and benefits

- **High performance extraction fan**
High performance extraction fan rapidly removes steam, smoke and cooking smells from your kitchen. Three-speed switch lets you select the fan strength you need – half strength for steamed vegetables; full strength for stir fries.
- **LED Lamps**
4x 3 watt LED lamps efficiently illuminate the entire cooking surface.
- **Multi-layered micromesh filters**
Multi-layered micromesh filters effectively trap grease. They're simple to remove and are easily maintained with a regular clean in the dishwasher.
- **Dual Side Controls**
Control panels on both sides mean the rangehood can be controlled whatever side of the island you're on.
- **Rectilinear design**
Simple styling makes cleaning easy. High quality stainless steel and the fingertip controls are easy to clean with a damp cloth.
- **Thermal overload switch**
Thermal overload function that senses extreme heat and disconnects power to the motor temporarily. If you have a cooking disaster, and something catches fire, the rangehood automatically switches off to prevent flames and sparks being sucked into the ducting or ceiling.
- **Recirculation option**
In situations where ducting isn't possible, your rangehood can be fitted with charcoal filters that effectively cleanse the air before returning it to the kitchen.
