

Sport Systems offers custom made padding to suit your needs. Our padding can be found in the following areas:

- ▶ industrial buildings and warehouses
- ▶ outdoor baseball parks
- ▶ basketball courts
- ▶ indoor sports facilities
- ▶ time-out or seclusion rooms
- ▶ rock climbing facilities

Safety padding is an important feature in any indoor or outdoor facility. From playgrounds to schools to warehouses, there is no compromise for a safe work or play environment.

Only your imagination will limit what can be padded. If you can dream it, we can make it!

Give us a call at **1-877-600-4667** with your ideas and dimensions, and we will come up with a custom-tailored solution to fit your budget.

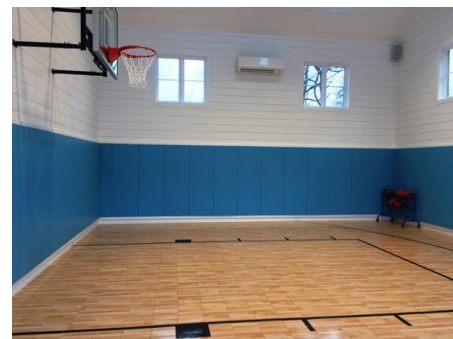

53-1 Permanent Wall Mat / Padding

Our model 53-1 wall padding is designed to be permanently mounted. The standard features of the individual panels are:

- ▶ 2' wide by 6' high
- ▶ 2" high density foam
- ▶ Heavy-duty vinyl cover available in 9 standard [colors](#)
- ▶ Vinyl has a leather emboss finish
- ▶ Material is mildew & rot resistant & easy to clean with soap and water
- ▶ Material is treated with U.V. pigments for weatherability
- ▶ **Vinyls meet ASTM E 84 Class A, NFPA 701-1989 Large Scale and CSFM requirements for flame retardancy**
- ▶ Cutouts are available for outlets or light switches
- ▶ Non-standard height and sizes available

You can use our permanent wall padding to compliment your facility with team colors or logos, and really show off your pride!

Not only do our clients use these wall pads in their schools and community centers, but also in their time-out or seclusion rooms and even for their outdoor applications such as baseball outfield board padding.

What type of information will a sales representative require from me, when I call or email, in order to request a quote?

The following information will be important in order to provide you with a quotation:

- ▶ Contact information (name, company, phone, fax, email)
- ▶ Shipping information (city, state / province, zip / postal code)
- ▶ Total number of linear feet of coverage needed or length X width X height of room to be padded
- ▶ Total number of cutouts required
- ▶ Required delivery date
- ▶ Any other pertinent details (color, new install or replacement, logos / lettering required)

Sewn Wall Padding

Sport Systems also offers a removable alternative to our conventional permanent padding. The standard removable pad we use is essentially a folding gym mat ([VM-V4](#)). This option gives you the flexibility of now using your padding for floor tumbling exercises as well.

This style of padding is provided with aluminum velcro channel wall strips (AWS-8) in 8' lengths which are mounted directly to the wall. The mats will then fasten to a top and bottom strip via velcro as needed.

Custom sizes and configurations are available, as well as the following colors to personalize your pads: blue, red, green, yellow, black & beige.

Please contact Sport Systems at **1-877-600-4667** to discuss your next padding project.

Stage Mat Padding

A stage in a gymnasium presents a real hazard when athletic activity is taking place. Sport Systems offers custom made stage padding for your facility.

Our stage mats are constructed with a 6" return to cover the top of your stage. This 6" return features a velcro fastening strip which has been sewn to its underside. This strip is then used in conjunction with an opposing velcro strip which is applied to the top of your stage. All stage padding is manufactured with a hinge. This hinge enables you to access under-stage storage areas without having to remove your padding.

A standard stage pad is constructed of 2" high density foam, and a heavy duty vinyl cover. We offer a wide variety of colors for your custom padding such as: yellow, forest green, gray, beige / tan, black, royal blue, navy blue, burgundy and red.

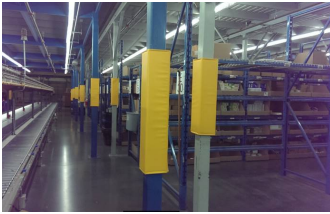

What type of information will a sales representative require from me, when I call or email, in order to request a quote?

The following information will be important in order to provide you with a quotation:

- ▶ Contact information (name, company, phone, fax, email)
- ▶ Shipping information (city, state / province, zip / postal code)
- ▶ Stage dimensions (height of stage by length of stage - in linear feet)
- ▶ Required delivery date
- ▶ Any other pertinent details (color, new install or replacement)

Post, Column & Beam Padding

Sport Systems offers padding for posts, poles, columns, I-beams and more. We can construct these pads round, square, hexagonal, 3-sided or as a flange style (example to left).

Each pad is custom made to our clients' requirements. Standard ingredients include a 2" high density foam and a heavy duty vinyl cover.

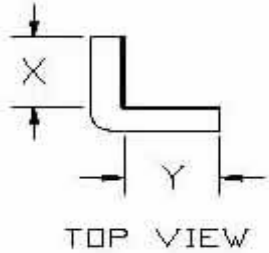

Please use the attached measuring guide for padding. Use the diagrams, to determine which measurements will be required for pricing. Then fax the Request for Quotation to the office, and someone will provide you with a quote within 2 business days.

What type of information will a sales representative require from me, when I call or email, in order to request a quote?

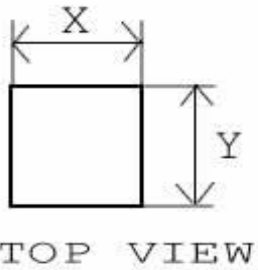

The following information will be important in order to provide you with a quotation:
