Adjustable String Wand Toys

It's Swat Cats Love!

One wand gives you multiple play options! Customize the string to any length.

- 🐾 Interchangeable rod/toy combination packages come in mouse, bug, and crinkle ball versions.
- 🐾 Uniquely designed for playtime versatility with its adjustable string, from 1" to 36" length.

KEY FEATURES

- **Premium handcrafted** bug and mouse toys with **life like, realistic movements**.
- High quality materials provide **long-lasting durability and strength** for all types of play.
- No more lost crinkle balls! During storage shorten string to reduce entanglement with other wands!
- Comfortable ergonomically styled **handle with storage space** for string concealing.
- **Compatible with Rompiatz Basics CrittrBugz toys** using the **CrittrBugz Interchangeable String Kit**.

Adjustable String Wand Toys

It's Swat Cats Love!

HOW TO USE:

- Open the cap at the end of the handle and pull out to desired string length.
- String can be adjusted from 1" to 36" lengths.

- Wrap excess string around your fingers neatly to avoid knotting.

- Wrap string around coil, tightening to ensure it doesn't loosen.

- Place the excess string inside storage space and close the cap.
- To change toys: untie the bead and pull out through tube. Insert new string into tube and tie onto the bead.

Multiple play options!

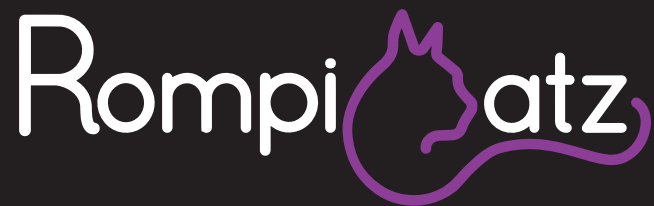

- Longer string usage - for running and jumping play or hide and seek.
- Shorter string usage - for closeup play or vertical movements up scratch poles.
- Helpful as a training tool.

The Pet Ki Story

Knowing the importance of mental stimulation and physical exercise for indoor cats, I wanted to tap into their natural hunting instincts and create toys that have movement and life-like resemblance to actual bugs & critters that cats hunt in the wild.

I took a very meticulous approach in designing toys that are extra safe for cats while ensuring durability for long lasting play. After many years of observation, testing and innovation has resulted in the creation of our premium cat toy lines: Critter Collector Series (previously known as Neko Flies) and the Adjustable String Wands.

Mental stimulation is a vital aspect for a cat's overall well-being.

Interactive bonding experiences help build trust and strengthen the relationship between owners and cats.

Rompicatz toys help facilitate that need by encouraging safe, entertaining play sessions.

Pet Ki is confident knowing that our toys have the highest quality standards giving cat owners piece of mind while playing with their precious furry family members.

Dogs also require a balance of physical and mental stimulation for their overall well-being. Proper exercise also helps control behavioral problems and interactive play promotes owner bonding with dogs.

Each toy is extensively tested by myself and the Pet Ki team of furry assistants and numerous cat and dog volunteers, who gladly lend a helping paw with their invaluable feedback.

Pet Ki Enterprises Inc. is committed to enriching the lives of pets/owners with innovative and safe solutions for playtime.

Thank you,
Ellen T.
