

DEPONTI

THE BEST AT HOME

## Pinela; Aluminium Louvered Roof Creating the perfect light on your own terrace

Want to decide for yourself how you want to enjoy the sun and the weather under your pergola? Now this is possible with the Pinela pergola from Deponti. With the remote control you can easily tilt the panels in the roof to a different position. This way you have the control to play with the light, the shade and the airflow under your roof.

During the summer for example, you have the flexibility to either sit in the sun or take advantage of the shade. In the winter on the other hand, you will experience the benefits of the waterproof roof and the protection against all kinds of weather conditions! This allows you to enjoy your terrace during all seasons, all year round.

# Pinela

The Pinela has a durable and sleek design which makes this roof a real addition to your home. With a remote control, the panels are easy to rotate into a position that creates the perfect light for you. Because the panels are continuously adjustable up to 120 degrees, you can even let the panels rotate with the sun! Thanks to the integrated gutter in the panels, any water accumulation is prevented and dirt is collected.

### Automatic operation

The system can be controlled remotely, which means that you can adjust the roof to your preferences with the push of a button.

### Effortless drainage of water

Thanks to the integrated gutter in both the roof and the panels, water accumulation is prevented.

### Unique rotation technology

The seamless rotation technology based on a special high-pressure system ensures the panels are sealed providing strength and stability.

### Protected against weather and wind

Because the panels close with a synchronous movement on the integrated beams, optimum insulation against wind and weather is guaranteed.

#### DETAILS

Colours	RAL7024
Panels	The panels are adjustable up to 120°. The panels of the Pinela and the optional LED lighting can be controlled with the supplied SOMFY remote control.
Applications	Can be installed both as a wall model and freestanding
