

creamy foaming hand wash

DURATION: 10 Minutes

SKILL LEVEL:

SUPPLIES:

Double boiler Thermometer
Scale Bottle with Foaming Pump Dispenser

FORMULA:

Makes 150 grams or 5 ounces

	INGREDIENT	FORMULA	WEIGHT
1	Distilled or Deionized Water	62.7 %	94.05 g
2	Organic Glycerin	5.0 %	7.5 g
3	Shea Butter Surfactant	24.0 %	36.0 g
4	Creamy Coconut Surfactant	7.0 %	10.5 g
5	Lavender Essential Oil*	0.3 %	0.45 g
6	Preservative PE	1.0 %	1.5 g
	TOTAL	100 %	150 g

DIRECTIONS:

Ingredients marked with an asterisk can be purchased from any supplier. Prepare a clean, sterilized double boiler with tap water in the bottom pan and add Deionized or Distilled Water to the top pan. Begin heating the mixture to 185°F with light stirring. Begin adding Organic Glycerin and Shea Butter surfactant, gently stirring until homogenous.

Ensuring proper safety precautions are followed and protective equipment is being worn, weigh your Creamy Coconut Surfactant. Once temperature is 180-185°F, slowly add it, stirring gently to avoid aeration. It will take time for this ingredient to dissolve.

Once dissolved, turn off heat and let product cool with gentle stirring. Once cool, add essential oil and Preservative PE with stirring. Pour into bottle and enjoy.

PRODUCT LABELING:

INGREDIENTS: Water, Shea Butteramidopropyl Betaine, Sodium Cocoyl Isethionate, Glycerin, Phenoxyethanol, Lavandula Angustifolia (Lavender) Oil, Ethylhexylglycerin
