DIRECTIONS: Prepare a double boiler with water in the bottom pan and add all ingredients. Begin heating the mixture to 175°F with light stirring. Hold the temperature for 20 minutes while gently stirring. All ingredients should be dissolved and the mixture looks homogenous.

Turn off the heat and allow the mixture to naturally cool while stirring. When the product begins to trace (become cloudy and thicken), stop stirring and pour into desired containers.

Cool rapidly to reduce graininess in final product by refrigerating for up to 24 hours. After removing from the refrigerator, allow product to equilibrate to room temperature before capping.

PRODUCT LABELING: INGREDIENTS: Ximenia Americana Seed Oil, Beeswax, Simmondsia Chinensis (Jojoba) Seed Oil, Butyrospermum Parkii (Shea) Butter, Squalane, Theobroma Cocoa (Cocoa) Seed Butter, Cetearyl Alcohol
