

Penny Pusher

Grade Level: 4 +

Materials needed: Play sheet, penny, paper & pencil

Object of play: Find as many six-letter anagrams as possible

Rules: Place a penny on circle #1, covering the 'C'. Using all of the letters in that row and that column, 'C', 'N', 'T', 'E', 'R', 'E', & 'U', make as many words as possible. "center" would be one possible word...there may be quite a few more. When you think you have made as many words as you can, move your penny to circle #2. Using only the letters in that row and that column, repeat the process. Continue in the same manner with all 16 circles. Good luck!
