

MAPLE LEAF

Solar Cables

Top-quality cables for PV in Canada.

Discover the power of Maple Leaf's solar panel cables, meticulously designed to overcome the challenges of the Canadian climate. Picture cables that don't just endure rain, ozone, sunlight, temperature swings, and UV rays but thrive in them. As the world increasingly turns to solar energy,

Trust Maple Leaf to bring you cables that not only withstand the elements but elevate your solar game. It's more than just cables; it's your key to sustainable energy, designed to shine in every Canadian weather twist. Embrace the future with confidence.

– choose Maple Leaf Power.

Maple Leaf 6 AWG 200ft, and 300ft Solar Extension Cable

Introducing our 6 AWG 200Ft, 300Ft Solar Extension Cable, engineered for superior reliability and durability. Crafted from high-quality copper wire, this cable enhances stability, conductivity, and corrosion resistance, ensuring optimal performance in solar panel, LED lamps, marine, automotive, audio systems, and homes. With double protective insulations and an impressive IP65 protection grade, it stands resilient against water, dust, and harsh environments, providing a robust solution for outdoor use. Upgrade your solar connectivity with confidence in this cable's high-performance capabilities. These extension cables hold CSA Certification, assuring adherence rigorous quality standards and instilling confidence in their performance and reliability.

This solar extension cable is not only user-friendly but also built to withstand various weather conditions. With an IP65 waterproof rating, it ensures worry-free outdoor use, even in rainy, snowy, or foggy conditions. The ten-year warranty provides confidence in your purchase, and the "Ten-Year Warranty" underscores the durability and reliability of these cables. For a seamless solar setup with extended reach and peace of mind, the 6WG 200ft and 300ft Solar Panel Extension Cable is the ideal choice. Feel free to reach out if you have any questions—we've got you covered.

TECH & SPECS

Item/Model	SASPPV6AWGEXT200	SASPPV6AWGEXT300
Certified	CSA	CSA
Feet Per Pound	17.54	17.54
Weight	28.5	31.5
Outside Diameter	0.303	0.303
Insulation Materials	Cross Linked Polyethylene	Cross Linked Polyethylene
Max Temperature Rating	105°C	105°C
Min Temperature Rating	-50°C	-50°C
Stranding	260	260
Maximum Voltage	600	600
Materials	Copper	Copper
Conductor Size	6 AWG	6 AWG
Length Ft.	200	300
Conductor Type	Stranded	Stranded
Jacket Color	Black/Red	Black/Red
Rated Voltage.	1000 VDC	1000 VDC

Experience the future of Solar Panel Extension Cables with the **6 AWG 200ft and 300ft Solar Panel Extension Cables** – where quality, innovation, and reliability converge to redefine your energy connectivity. Secure your power supply choose excellence, choose sustainability, choose these extension cables for a brighter, eco-conscious tomorrow.
