

NULUMBER

Forming your Future!

WHAT IS NULUMBER?

Non-Structural fiberglass composite edge form to replace LVL's and timber that are currently used for slab on ground applications.

WHY CHOOSE NULUMBER?

INNOVATIVE & SUSTAINABLE

The washable, reusable boards means reduced waste common in jobs using LVL's as well as saving on transport costs and emissions.

LIGHTER & DURABLE

NuLumber is 1/3 to 1/5 of the weight of LVL but with 5-10 X the lifespan making it easier to work with and long-lasting.

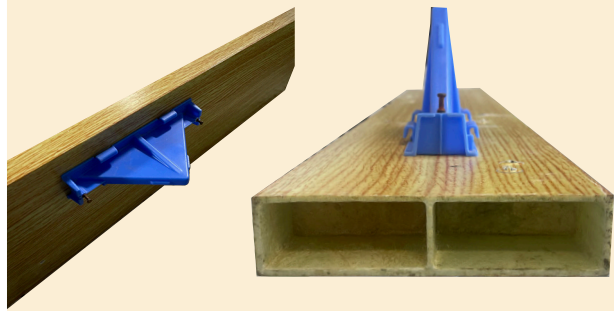

SAVES ON MATERIAL & LABOUR

Eliminated time and reduce labour fatigue from scrapping boards. More efficient processes = less labour and material costs.

THE NULUMBER DIFFERENCE

- Filled with hi-density injected foam allowing it to be screwed into multiple times.
- Increased rigidity ensuring board will stay straighter for longer.
- Nail diamond dowel joints securely with ease.

SIZE	DESCRIPTION	PACK SIZES	RRP (inc gst)
90mm	90mm x 35mm x 5.8m NuLumber Fibre Boards (3mm wall)	55 Lengths	\$90.00
