just create art with Thomas, but she hopes will allow the public to take pride in pieces she plans to have displayed throughout the City of Ville Platte.

That accomplishment is a grant, which her hard work and creativity has recently earned her, called ArtSpark 2019.

Thomas said this grant is one she hopes to use to "create art that inspires the children."

The grant, which Thomas was introduced to by Suzy Lemoine, was awarded to 12 out of 26 applicants, and has been provided

## Kyle Vidrine prepares Vidrine Elem. students for testing with inspirational speech

As students prepared to dive into state testing two weeks ago, Kyle Vidrine visited Vidrine Elementary to share motivational words before students began their test that will continue when they return to school from Easter break Monday. He is pictured at left stretching during his visit to VE when he shared, "You can always do more, but you have to stretch for it. The only thing you can control is your effort. Life is all about the extra stretch and the little more that you give." Vidrine also reminded students that the state test they are tak-ing "will prepare them for tomorrow." The published author and motivational speaker then shared, "While this test may seem tough, you can make it through anything." This lesson he said he learned when he nearly lost everything in a car accident. Vidrine then taught the students a chant to remember, which was "I can, I must, I will." Special guests present for this event were Evangeline Parish Superintendent Darwan Lazard and Supervisor Cheryl Tezeno. (Gazette photo by Elizabeth West)
