

HSM ProfiPack C400 Packaging machine

Model available from June 2018!
More information at:
www.hsm.eu/ProfiPack

From waste to packaging material

Used cardboard is made into high-quality packaging material.

Specially hardened solid steel cutting rollers

Specially hardened HSM cutting rollers ensure absolutely precise cutting.

With this packaging machine, you can process cardboard into a padding mat or padded filling material in one working step. As a compact tabletop device, it can be used as a mobile device with total flexibility.

- High quality materials and „Made in Germany“ quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful drive allows continuous operation.
- Adjustable cushioning volume of the packaging material.
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Intuitive operation with LED indicators on robust keypad.
- The integrated turbo-function resolves blockages.
- Recessed handle for easy lifting of the device.
- Non-slip stand of the packaging machine.

Article number	1528134	Noise level (idle operation)	59 dB(A)
EAN	4026631062695	Driving power	1.2 kW
Scope of application	Tabletop device	Voltage	230 V
Intake width	415 mm	Frequency	50 Hz
Infeed/Loading height	10 mm	Width x Depth x Height	610 x 395 x 375 mm
Cutting capacity	1 layer	Weight	39 kg
Cutting speed	185 mm/s	Colour	light grey/iron grey

2018-01 _ Technical and design modifications reserved.
