This powerful industrial shredder for three-phase power supply ensures data security in archives or as a central point for document shredding. Thanks to the integrated rollers and compact size, the machine can be easily set up at the installation site and saves space. Its induction-hardened solid steel cutting rollers are low on wear, resistant and guarantee long service life. Just like the powerful and energy-efficient motor with chain drive. It guarantees reliable operation with maximum throughput – even during continuous operation. A manual oiler is integrated for consistently high cutting capacity and quality in cross cut models. The keypad with LED display enables you to easily operate the industrial shredder and view the operating state. The automatic reverse rectifies paper jams and ensures smooth operation. The large industrial shredder can be filled easily at the loading table or the electric conveyor belt. Using the detachable collection trolley makes removing shredded material simple. The high-quality materials and proven quality “Made in Germany” guarantee you security and long service life.
