This powerful industrial shredder for three-phase power supply ensures data security in archives or as a central point for document shredding. Thanks to the integrated rollers and compact size, the industrial shredder can be easily set up at the installation site and saves space. Its induction-hardened solid steel cutting rollers are low on wear, resistant and guarantee long service life. Just like the powerful and energy-efficient motor with chain drive. It guarantees reliable operation with maximum throughput – even during continuous operation. An automatic oiler is integrated for consistently high cutting capacity and quality. The multifunctional operation button enables intuitive use of the industrial shredder. The automatic reverse rectifies paper jams and ensures smooth operation. High user safety is guaranteed by the safety circuit on the loading table which stops the industrial shredder if it is touched. The large industrial shredder can be filled easily at the loading table or the electric conveyor belt. Using the detachable collection trolley makes removing shredded material simple. The high-quality materials and proven quality “Made in Germany” guarantee you security and long service life.
