This paper shredder ensures data security in private areas or home offices. Its induction-hardened solid steel cutting rollers are impervious to staples and paper clips and guarantee long service life. Optimum design of cutting and drive components as well as the closed gear mechanism ensure low noise. The multifunctional operation button enables intuitive use of the paper shredder. An integrated light barrier starts the device automatically and switches it off again after the paper feed ends. The automatic reverse rectifies paper jams and ensures smooth operation. High user safety is guaranteed by the folding safety element, which prevents unintentional intake and automatically switches off the paper shredder if pressure is applied. The level of the waste container is always visible through the inspection window, making timely emptying possible. The waste container is easy to remove and empty. In standby mode, the energy management and control system EMCS ensures low power consumption. The high-quality materials and proven quality "Made in Germany" guarantee you security and long service life.
