

FRONT VIEW

Material	4mm copper-free silver mirror with stainless steel frame
Size	600 x 900mm
Mount style	Wall mount brackets

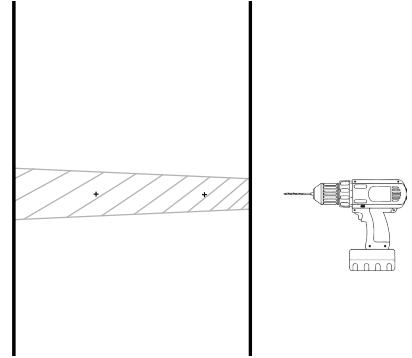

1

Refer to tech drawing for distance between hooks then measure and mark anchor point locations on wall.

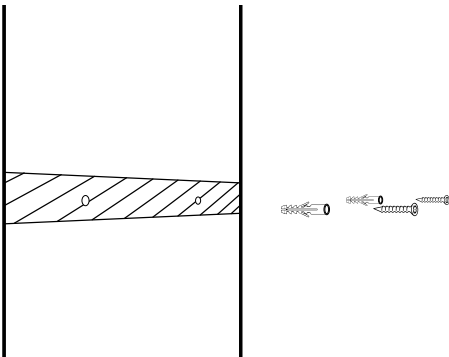

2

Drill hole through wall into stud.

3

Insert included wall anchor. Install screw leaving head projected enough so that the mirror hooks will catch.

4

Line up mirror hooks with screws and set mirror onto wall. Ensure mirror is properly secured.
