## THE NATURAL AFRICA

### New Natural Cosmetics Combining Supply Chain Transparency and Skin Science

"The Natural Africa" was established with the aim of delivering the wisdom of African plants to the world through natural skincare formulations. Many of the botanical extracts and herbs used as raw materials for natural cosmetics are from Africa, but "The Natural Africa" is a new natural cosmetics brand that combines the transparency of the supply chain of ethical ingredients with skin science using a manufacturing method called small batch.

#### ROSEHIP OIL

100% Rosa Canina Oil made by active botanical cold pressing. A light, non-greasy formula enriched with vitamin C that protects the skin from environmental pollution, increases collagen production and smoothes fine wrinkles.
