

"This is the perfect serum to apply under your sunscreen with cooling, quenching, weightless and antioxidant aloe vera juice and aloe vera extract, plus a host of other African antioxidant botanicals, It disappears instantly into your skin without any oiliness or stickiness and it forms an extra line of antioxidant defence against UV-generated, skin cell-monstering free radicals. By night, it's a brilliant facial aftersun product, so it's your does-it-all holiday rescue remedy." *Ingeborg van Lotringen, Contributing Beauty Editor*
