DICTATION REINVENTED

**THIS IS THE FUTURE SPEAKING:**  
SIMPLICITY, EFFICIENCY,  
SECURITY, QUALITY & MOBILITY

The sturdy device comes with a one-of-a-kind slide switch offering Touch Pin function. This way you can dictate with your eyes closed, you'll automatically feel the stop position. Plus, the slide switch can be configured to meet your dictation style – making it especially practical for those new to Grundig dictation machines. The display is extra large and shows all information very clear. Optimum audio quality in the DSSPro recording format (ideally suitable for speech recognition as well), effective workflow functions and highest security standards are a matter of course.

- Easy Mode for especially easy operation
- Slide switch offering individual configuration of the function sequence
- 2 GB on-board memory for almost 300 hours of recording time, extendable with external DigtaCard.
- Best sound quality thanks to DSSPro, ideally suitable for speech recognition
- XXL display: high contrast, transfective, easy-to-read screen design
- Li-ION rechargeable battery/batteries
- Effective DSS workflow by means of key word allocation
- Pluggable barcode reader
- PIN/PUK protection, UUID, encryption of dictations
- Accessories: Digta Station 447
- DSSMover for automatic dictation transfer
- Digta Configurator for comfortable configuration of your dictation device
