Waste electrical products should not be disposed of with house hold waste. Separate disposal facilities exist, for your nearest facilities see [www.recycle-more.co.uk](http://www.recycle-more.co.uk)

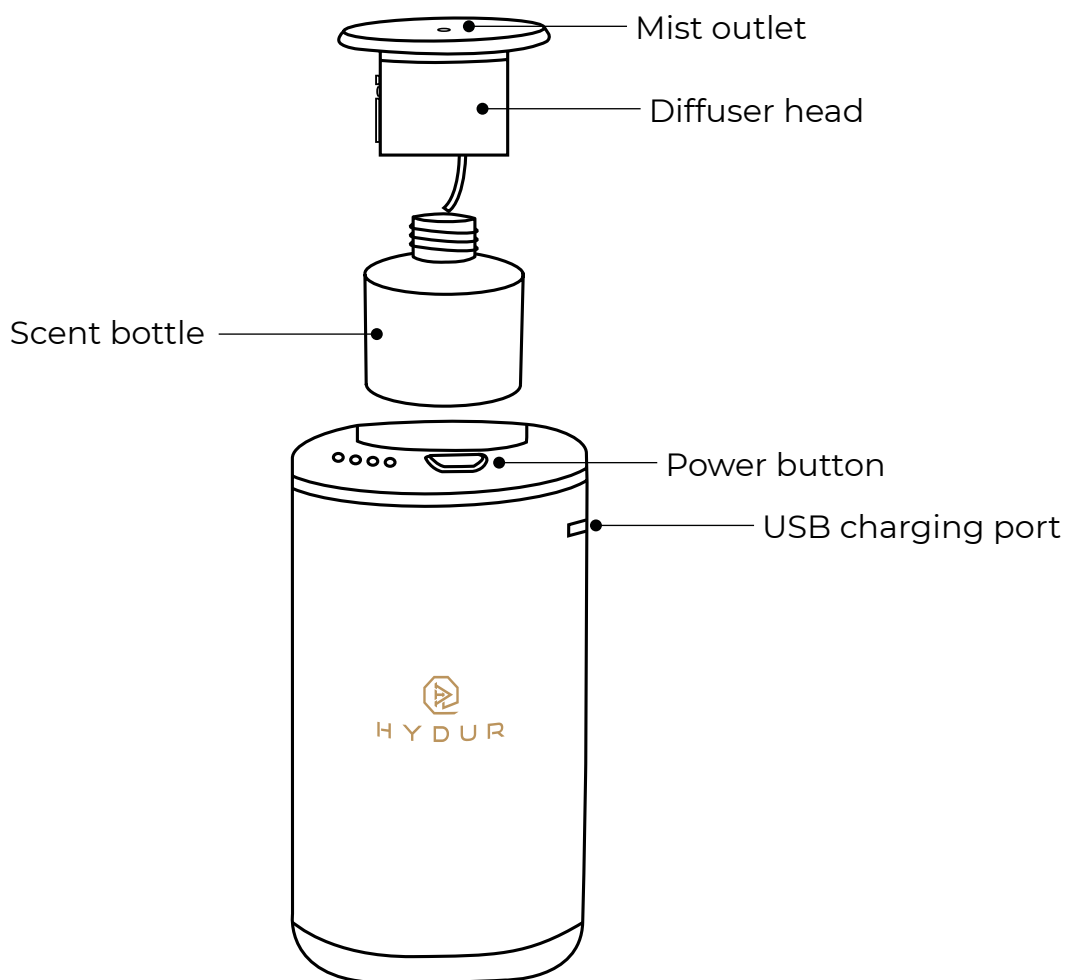

## Specification

---

Our Car Diff is elegantly designed with a textured vinyl covering and finished with a line of Gold, Silver or Blue. Being versatile and portable this diffuser uses patented ultrasonic atomisation to diffuses scent with near to no noise.

Wireless capability allows for an array of placements.

With a four-intensity diffusion setting and a subtle light indicator, this diffuser is impeccable.

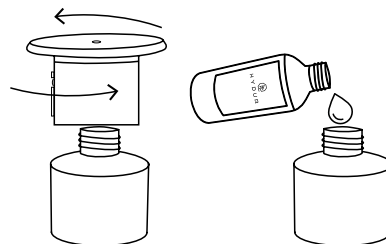

## Operating your diffuser

---

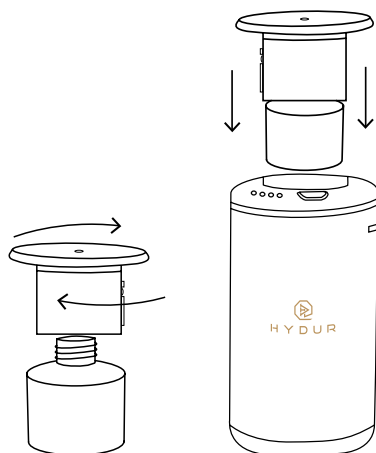

- 1 When the power is off, remove the atomiser head pulling it upwards.

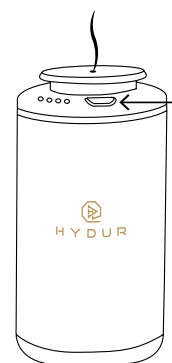

- 2 Unscrew the bottle from the atomiser head and fill with scented oil.

- 3 Screw the bottle back onto the diffuser head firmly and insert into the diffuser.

- 4 Press the power button to turn ON/OFF the diffuser.

- 5 To increase or decrease the scent intensity level continuous press the power button, a blue light illuminates with a beep sound to reach the desired level.

## Directions

### Button

1. Long press power button for 2 seconds to turn ON/OFF the diffuser.
2. Continuous press to change the scent intensity level(from 1 to 4).
3. The diffuser will operate until you hear a beep sound, and will automatically shut off.

### Charging

1. Use the USB cable provided to charge your diffuser.
2. When the diffuser is OFF while in charging state it will blink a red light.
3. When the diffuser is operating, it will display a pink light to indicate battery is low and to recharge soon.
4. When the diffuser is operating and being charged it will blink a Pink light.
5. When the diffuser is fully charged the pink light will automatically shut off.
6. The diffuser will continue to operate whilst in charging state.

## Battery

It takes approximately 1 hour for the diffuser to be fully charged (recommended) and will last approximately 3 hours on the 3rd intensity level

Intensity Level Indicator Light	Length of Diffusion (in Seconds)	Interval between Diffusion (in Minutes)
1	5	6
2	5	3
3	10	2
4	10	1

## Warning

---

Please read and follow all instructions

- After installation, please keep the diffuser on a stable horizontal surface do not tilt or angle as this will cause oil leakage and may damage the machine
- Turn the diffuser off before adding any new oil
- For your safety and quality assurance, we strongly advise do not disassemble or repair the machine as this will void the warranty and will damage the machine
- Only use Hydur purchased scenting oil. Any other oil may cause blockage and will void the warranty and could damage the machine
- Only use the USB cable supplied with the device
- Do not overfill, keep the oil level below the neck of the bottle
- Do not install or use within the reach of children or pets. Doing so may lead to the product tipping over or in other accidents cause injury
- Do not submerge or pour / splash water on this product or its cable, doing so may lead to electric shock or injury
- Never attempt to insert pins, wires or other foreign objects in the mist diffuser outlet, doing so may lead to shock or injury
- Do not use damaged power cables or charging when moisture is present, can cause fire, electric shock, injury or damage to the diffuser
- Do not allow children to play with this appliance
- If there is a spill due to tipping over or tilting, do not allow it to come comes in contact with the internal outlet or charging port as it can result in malfunction or may lead to shock or injury
- Please do not use the diffuser, if there is no scenting oil in the bottle

## Care/Storage

---

For your safety, regularly perform care and maintenance for your scent oil diffuser,

- If scenting oil comes into contact with the outer cover or inner cover, or the cover becomes dirty, wipe it off with a clean cloth soaked with warm water and wipe with a dry cloth
- Using the diffuser without regular cleaning may result in mineral build up resulting in degraded performance

## Storage

---

- Do not store this product in a location subject to high temperature or humidity
- Before using this product after a period of storage, clean the interior with a dry cloth to remove any dust particles

It is recommended to perform the following procedure to clean your diffuser to prevent clogging, and ensure product quality and performance. We advise run once a month with Isopropyl alcohol for 15 mins

## Cleaning Steps

---

- Always turn the diffuser off and unplug the device during maintenance
- Unscrew the bottle and replace the scenting oil with Isopropyl Alcohol
- Screw the bottle into the Diffuser and let it run for 10-15 mins
- After running your cleaning cycle, replace the Isopropyl Alcohol with scenting oil
