After many fruitless years of searching for the 'perfect' corner sofa we have decided to design our own!

Our Lambourn Sofa is the perfect modular sofa; designed for comfortable, stylish, flexible and future proof contemporary living.

Featuring a modular design which enables numerous configurations; from a 2 seat to a 3 or 4 seat sofa, to a left or right corner sofa - even a king-size sofa bed without compromising on comfort.

Once you have chosen the perfect configuration to suit your home; the Lambourn sections are linked together using hidden brackets, which are easy to engage and decouple as required.

All cushions covers are easily removable for cleaning purposes. The seat cushions have a memory foam pad with a foam and fibre wrap, ensuring maximum comfort & support.

A 5-year care plan is also available to protect your investment against accidental damage, staining and structural defects, please request further information about this care plan product.
