INSTRUCTIONS

1.

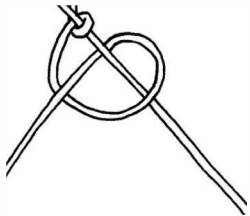

Cut cotton cord into 8 lengths, each approx. 4yds long, and use each length to create a Lark's Knot around the bottom of the ring.

2.

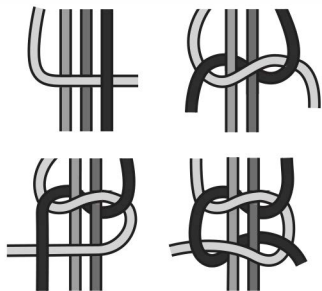

Using 2 pairs of cord for each knot, make 4 Square Knots, then repeat to make 3 Square Knots centered below the 4, then repeat with 2 centered below the 3, then 1 centered below the 2 Square Knots

3.

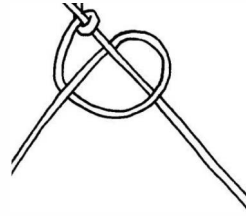

Make diagonal Double Half Hitch Knots, starting with the pair of cords in the middle and working to the outside.

4.

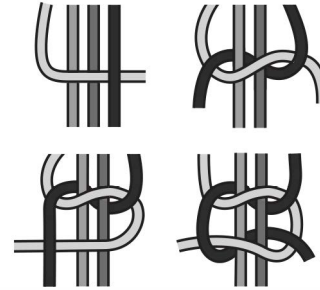

Make Square Knots inside the arrow formed with the Double Half Hitch Knots in Step 3. Create a Square Knot at the point of the arrow, then 2 below the center Square Knot, then 3 Square Knots, then 2 Square Knots centered, then 1 Square Knot centered.

5.

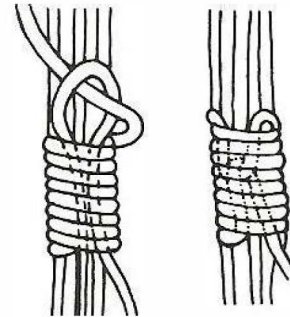

Make diagonal Double Half Hitch knots along the outsides of the 3-2-1 Square Knots made in Step 4, forming a diamond around the Square Knots.

6.

Make a pattern of centered 1-2-3-4-3-2-1 Square Knots.

7.

Evenly separate the left cords from the right cords. Several inches down from the Square Knots, tie each group of cords into a gathering knot.

Pull 2 cords through each hole in the wood shelf and tie in a knot under the shelf to secure.
