

## 2" GEO / GROUND GRID (no loads) Grass fill

Geo / Ground Grid (art.8750)

- 1. 2" geo / ground grid system should be installed in accordance with the manufacturer's instructions and recommendations.
- 2. The manufacturer's technical consultation may be required to determine the correct load class.
- 3. The drawing of installation for the 2" geo / ground grid system is not an official guideline, but is a recommendation.
- 4. Layers shown in cross-section need to be compacted.
- 5. Geo-textile is to be used for stability and to prevent mixing between layers.
- 6. We recommend anchors on each corner of the grid, and throughout the perimeter. Needed on sloped installations, mostly.
- 7. Follow for updates to the instructions and recommendations on the website vodaland.ca

## **Application**

erosion control, garden beds, sloped lawns up to 10 degrees
