

4" GEO / GROUND GRID (Load Class A-C)

Paving tiles

NOTES:

1. 4" geo / ground grid system should be installed in accordance with the manufacturer's instructions and recommendations.
2. The manufacturer's technical consultation may be required to determine the correct load class.
3. The drawing of installation for the 4" geo / ground grid system is not an official guideline, but is a recommendation.
4. Layers shown in cross-section need to be compacted.
5. Geo-textile is to be used for stability and to prevent mixing between layers.
6. We recommend anchors on each corner of the grid, and throughout the perimeter. Needed on sloped installations, mostly.
7. Follow for updates to the instructions and recommendations on the website vodaland.ca

Geo / Ground Grid (art.8710)
