LEATHER SHOE

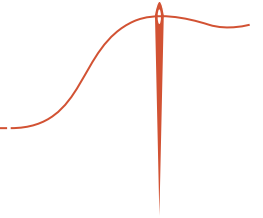

Upon arrival to Lake Atitlán, the local handcrafted artisan work attracts each and every eye. One of many things Mayans are rightly proud of is their artisan work which is sold in many forms worldwide. For some Guatemalan business owners, this line of work is an unreliable source of income, as it ebbs and flows with tourism.

Atitlán Leather was founded in attempt to alleviate this vulnerability workers experience, by facilitating the creation and worldwide distribution of these unmatched leather products. To this end, Atitlán Leather unites very affordable quality handcrafted leather goods with logistics expertise and great customer service, to ensure every purchase is an enjoyable experience.
