USM Haller E

A modular structure of your design, either completely or partially equipped with e-Balls and e-Tubes, is connected to a source of electricity. The structure itself conducts the low voltage electricity to the desired location using the e-Balls, e-Connectors and e-Tubes to form a circuit. USB chargers or light sources can be snapped into place in pre-cut recesses. The power supply is drawn from any point near the ground. The power supply cable is attached to a Haller e-Ball, and the power adapter is subsequently tucked underneath the furniture until only the operating switch remains visible. From this point the power supply requires no further cables but rather is integrated into the structure of the furniture.

Application Options

- 1 Glass Panel**
Glass elements can be illuminated throughout.
- 2 Without Metal Paneling**
Compartments without metal paneling can be completely illuminated.
- 3 With Metal Paneling**
Compartments with metal paneling can be illuminated from the front.
- 4 Compartment with an Extension Shelf**
The entire compartment with an extension shelf can be illuminated.
- 5 Drop-Down and Extension Door**
Via the "Light When Compartment Is Open" function, the light automatically turns on when the door is opened.
- 6 Angled Shelf**
The presentation space is illuminated from the front.
- 7 Floor Lighting**
With floor lighting, the light shines at a 25-degree angle under the furniture.
- 8 Ambient Lighting**
The light is directed vertically towards the back, illuminating the surroundings with a warm glow.
- 9 e-USB Charger**
It can be integrated in the same places as the e-Lights.

e-Elements

- 1 e-Lights**
Dimmable, available in
– Warm white 2700 Kelvin
– Cold white 5700 Kelvin
Both with or without the "light at compartment opening" function.
- 2 e-USB Charger**
Provides a voltage of 5 volts to the connected device. (Capacity: 6.5 W)
- 3 e-Dummy**
Sleek, black e-Dummy element close recesses that are still unutilised. If a piece of furniture should later be supplemented with additional light, using e-Tubes (consuming), which are first equipped with e-Dummy elements, is recommended.
- 4 e-Tube (power outlet)**
Tubes with recesses for e-Lights, e-USB chargers or e-Dummy elements that can be easily snapped into place or replaced.
14"D, 1 recess
20"D, 2 recesses
30"D, 3 recesses
- 5 e-Tube (conductive)**
The conductive e-Tube serves to conduct the electricity if no inserts are desired in this location. It is available in lengths of 30", 20", 16", 14", 10" and 7".
- 6 e-Ball, e-Connector**
To enable the flow of electricity, the ball and connector were refined. The exterior dimensions remain unchanged. The distinguishing feature of the ball is the black insulation ring.
- 7 e-Power Supply**
Includes dimmer at the operating switch. Transforms the power supply voltage to 24 volts. (Capacity: 60 W)

The adapter is suitable for USB 2.0 and 3.0 ports; it can easily be inserted into the adaptation point. Usable as power supply or for data transfer.
- 11 **Lamp peg**
An optional lamp peg for easy attachment of traditional table lamps. Electrification is possible through the adaptation point.

Cable duct

The classic USM Haller table can be updated with a black aluminum cable duct section, with lids that fold open on both sides, to integrate cables. This enables the table depths to be expanded to the EU standard of more than 32". Available for the following table sizes: of 79"W, 69"W, 59"W, 49"W, 39"W, 35"W, 30"W.

Accessories for USM Haller Desk Plus/ Advanced

* Manual height adjustment with a removable handle.

** Note: These sizes are not yet included in the standard range.

USM Kitos M and E Desk

Each desk (except free-standing) of the USM Kitos M and E family offers integrated smart solutions for electrification.

Why USM Kitos M?

The "M" in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 sec. with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

Why USM Kitos E?

Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.
