making places work

75 inspirations for future-proof work environments
Making places work This sounds so simple but may be a true challenge in times of permanent change. Responding to this with creativity has always been a key strength in USM’s DNA. For more than 55 years, we have celebrated modularity and fluidity – the ability to adapt to evolving needs at any time; the ability to provide agile solutions for multifunctional, hybrid spaces.

The office as a place to gather for creative exchange and interdisciplinary cooperation will continue to be of central importance in the future. Let’s shape it together:

Let’s make your office a place that promotes creativity and collaboration! A place people like to be in! A place that celebrates your organization’s culture and values!
A warm arrival
This reception in ruby red sends out a clear signal as a place to meet in the open space. Lush worlds of plants serve as semi-transparent zoning and the waiting area invites you to linger.
Customize your centre piece!

A reception has a key role to play: it is the linchpin of an organization: a place to welcome guests that ensures the right first impression. Often free-standing, it should look good and ideally offer a hospitable waiting area. A USM reception desk is just as individual as a bespoke piece, but it is much more adaptable. The front and back can easily adapt to changing needs such as the integration of a showcase, a magazine display, protection shields and a USB docking station.

2 Multifunctional work center
This design incorporates a double workstation and high-quality reception in one. Storage compartments are accessible from both sides, so users can access everything they need quickly.

3 A clean appearance
Sleek from the front, multifunctional from the back, the glass perfectly showcases beautiful items. Customize your reception for added organization with elements such as drawers, shelves and baskets.

4 Simplify interactions
The reception desk is the essential point of contact for visitors. This fully functional design includes a shelf for bags.

5 Guest seating
Combine a long work table with an angled counter to create space for comfortable interactions with your guests.

6 Barrier-free
Customize desks with the USM Haller system to allow space for guests, including wheelchair accessible options.
Go on a virtual tour!

360° of functionality and design
A USM Reception doesn’t have a front or a back – it is aesthetically pleasing from all sides. It is ideal for brand new spaces and can easily be part of a retrofit to meet changing safety standards. A wide range of USM product offers a wide range of protection measures.
Purity
The reception provides a clutter-free blank canvas, which gives a professional first impression for corporate environments.

Bring the green inside
Plants can add a touch of greenery to complement the clean lines of the design classic. With a clever system solution from USM, you can now create a low-maintenance indoor green oasis that provides an atmospheric setting in a meeting space or waiting area.
Recharge
Being able to charge your devices is a much-needed part of working life. The USB charger integrated into the furniture is on hand to help.

Multipurpose sculpture
USM can be used as a spatial divider as well as an eye-catching addition to waiting areas, providing the perfect place for informal get-togethers.

All in one
Plants create a pleasant atmosphere and there is also room to display magazines.

Welcome screen
More than just shelving, this design creates a sense of place in your entrance area. This semi-transparent room divider, which can be used from either side, is the ideal backdrop for your lounge area, with a built-in TV screen.
Expressive

This design offers high shelves, low showcases and large format tables in elegant materials. USM Modular Furniture represents a fully flexible solution to meet your needs.
15  **Sit stand solution**

The USM Kitos table is manually height adjustable. Its elegant black linoleum contrasts beautifully with splashes of color.

16  **Connectivity**

Added value: The adaptation points in the tabletop allow for easy insertion of accessories such as desk lamps and USBs and provide access for cables underneath the slideable table surface.
Lock securely, share easily

The storage units can be locked securely, ensuring confidential documents remain private. With the introduction of the new Lock C and its easy management via the USM app you can easily enable third parties to receive access — perfect for when you plan to work remotely.

Available as of 2022.

Maximum Efficiency

We call it a z-configuration. A shared storage unit with drawers is accessible from both sides, connecting two individual workstations to one surface.
Be mindful that needs may change over time
USM grows with its owner: When starting a business,
what more do you need than a desk and minimal
storage? Over time the business and size of your team
may grow. Add functions step by step and let the
furnishings align to your business’ changing needs.

18 Tear down the walls
Who needs walls when you can
design spaces so perfectly that
they can seamlessly be used for
multiple functions at the same
time? The gentian blue central
unit is a multimedia library
and facilitates collaboration.

Watch
the progress!
Provide space, create privacy!

Longer tables guarantee safe distances between employees. In addition, privacy panels or transparent screens can easily be put up or dismantled in no time at all. Fenix table surfaces are particularly resistant to scratches and fingerprints and are able to withstand regular cleaning.

Protection screens
Adaptation points located on the table surfaces enable a wide range of applications. For example, they allow the immediate installation of protective glass.

Benches with end of desk storage
Extra-long USM Haller tables combined with USM Privacy Panels create modern team workstations. End of desk storage in a ruby red shade provides space for personal belongings and adds a pop of color.

Agility
Work methods may vary, teams change size and structure. The office layout must adapt to evolving needs and projects. USM Haller Privacy Panels can support changing office layouts by dividing up the space fairly.

Usable from all sides
One table – two workstations. At the impressive 118” long USM Haller table, plants and USM Privacy Panels can create a sense of privacy without separating employees from their co-workers too much.

Versatility
The two adaptation points in the tabletop allow for easy insertion of up to four accessories, or holders for protection screens, making it possible to configure the table to meet individual user requirements.
23 Hot desking
Employees can choose a free workstation at the long worktable. Computer monitors are mounted in the adaptation points of the USM Haller tables. Simply connect yourself up and off you go.
Empower your employees to work at home!
Being able to offer a workplace at home is an important argument for attracting top talents nowadays. The advantage of USM: the solutions harmonize with every style of living and available space; as a dedicated workplace with an ergonomically height-adjustable table or as a multi-functional design classic that blends unobtrusively into the living environment.

24 Powerless height adjustability
A whole new working experience in seconds and with minimal effort, the Kitos Table M can easily be adjusted from a sitting position to a standing one.

25 Ergonomic
A solution for the sophisticated office: the impressively large 71” × 36” table can be height-adjusted manually using just one hand. Its tabletop in a brown oiled oak veneer paired with a playful sideboard creates a homely atmosphere.

26 Free standing and versatile
The round, free standing USM Kitos E tables encourage active and varied use. They can be quickly adjusted in height without the need for power or electricity, making for the perfect standing workstation as well as a comfortable breakfast table.

27 Matchmaking
The Haller modular furniture system can be matched to the dimensions of the USM Kitos tables. And no space is ever wasted: storage space can be accessed from any side.

Empower your employees to work at home!
Being able to offer a workplace at home is an important argument for attracting top talents nowadays. The advantage of USM: the solutions harmonize with every style of living and available space; as a dedicated workplace with an ergonomically height-adjustable table or as a multi-functional design classic that blends unobtrusively into the living environment.
Creative repurposing

A table does not necessarily need four legs. Take advantage of the creative potential of repurposing. Two timeless sideboards using USM's craftsmanship make a perfect desk in a league of its own, with the ideal sitting height easily achievable.
29 Niche player
Elegant and colorful, a home office can be integrated into even the smallest residential space. The extra narrow, 49” × 30” USM Haller table with black linoleum worksurface doesn’t require much room and offers a space-efficient working set up.

30 A classic with multiple benefits
A home office that’s barely visible: in the blink of an eye, this stylish sideboard is transformed into a workstation. Pull back the extension shelf, put the laptop away, and your work is done for the day.

31 Space miracle
A compact office in a small space: shelves and pull-outs accommodate all the things needed during a workday. Even a printer can be housed discreetly.

32 Command centre
Keep everything under control while working from home. Two workstations integrate into a beautiful multifunctional shelf offering generous space for working and a place to put your personal belongings.
Connecting people

Today’s workplace gives its users the choice of where and how they want to work. An office space needs to support different ways of working with the ability to come together or meet in a more confidential setting. Large USM Haller tables offer employees greater freedom in how they meet. Privacy Panels allow for quiet spaces and USM Haller creates a central gathering point.

*Standing room dividers are not available in North America.*
Facilitate collaboration!
Opportunities for spontaneous interactions are essential in the modern-day workplace. From a meeting area and a cafeteria to a library and a brainstorming area USM can provide solutions where employees are inspired, visitors feel welcome and colleagues are at ease.

34 Landscaped offices
USM Kitos desks provide a flexible office solution for a team of colleagues. The system enables working individually and as part of a group where necessary. Manual height adjustment allows for hassle-free Sit to Stand working.

35 One team, one table
Get together at one large desk. USM Haller has full-length desks creating work islands in a flexible workspace. The set up includes power points for various smart accessories such as lamps, USBs and protection screens, as well as grommet hatches for immediate network access.

36 Get together
Two extra-large USM Haller tables are great for spontaneous discussions, meetings or presentations. Everyone simply brings their own caddy, containing the desk accessories, paperwork and other personal belongings necessary for the job.

37 Office forum
Create your own office forum, a spot where you take a break or conduct an informal meeting, with built-in storage for whatever the team might need.
Fluid room concepts
Open structures are easily divided with USM Privacy Panels* to enable spontaneous meetings without disturbing others in their work. These can be deconstructed at any time. This allows the space to continue to be used flexibly and collaboration is facilitated.

Optimized acoustics
USM Privacy Panels* have been proven to improve room acoustics, which adds value when dividing open plan spaces into different zones.

Creative village
USM Privacy Panels* offer a modular and flexible way to create breakout areas within a room to enable different types of work to happen in a small space. Add a touch of color where appropriate.

* Standing room dividers are not available in North America.
Meeting, presenting, teamwork.

The Kitos M Meeting extra-large table with its manual height adjustment provides the ideal meeting setting. A media unit holds all the technology while a serving cart can provide refreshments at any time.
Provide supersized, height-adjustable tables!
The Kitos M Meeting is the first mechanically height-adjustable meeting table that is both supersized and extra stable. A tension spring mechanism, which lasts much longer than a gas pressure spring, adjusts quickly and easily. Optional grommet hatches on both sides give easy access to power.

Supersized table
Enjoy a generously proportioned table at a comfortable height. The USM Kitos M Meeting desk is made for ad-hoc standing meetings of up to eight people and is easily manually height adjustable.

Multipurpose
Creating inspiring spaces that foster innovation contributes to establishing a dynamic corporate culture. The meeting area can host video calls, presentations, strategy meetings and even serve as a place to meet with colleagues for a coffee break.

Ad-hoc get together
Stand and chat in an informal, spontaneous way over a coffee with the USM Kitos M meeting desk. Plug into the network through two grommet hatches.

Bring your own device
Personal desk accessories and relevant documents for group projects can easily be stored in the dedicated caddy. When the work is done, the caddy can simply be placed back on the shelf. The extra-large, 98” × 39” table provides space for larger meetings.
Think dynamic meeting spaces!
Make your meetings more dynamic. Instead of one large conference table, we recommend a number of smaller tables instead. These can be quickly re-arranged to create exactly the right configuration for every occasion. Use the system as individual tables for group work with social distancing with plenty of space in between. Furniture on castors provides a fully mobile solution.

46 Connectivity
Discreet table grommet hatch allow meeting participants to connect to power and networks at any time.

47 Rearrange!
Create your versatile, flexible meeting room: all elements can be quickly reconfigured according to what is required.

48 One group, one table
Meet in the most stylish way possible: the 120” long USM Haller table can host up to 8 people.

49 Presentations in front!
The screen is often the centre of attention in meetings. Rearrange a group of tables around the screen when required and then a sideboard discreetly hides all the technology when not in use.

Sound absorption
Perforated metal panels with a fleece-covered interior: acoustic USM Haller elements significantly reduce background noise, thus improving the overall work environment.
Multimedia multi-use
Frame all technical equipment with an eye-catching shelf. Small individual tables can be moved within the space to provide social distancing or for different meeting configurations.
Focus corner
USM Haller can also create spaces for focussed work or confidential conversations and thanks to the perforated panels, the acoustics are perfect.

Smaller, focussed areas
Smaller format tables can easily be integrated into the office landscape, creating useful spots to meet and communicate in.

Occasional tables
These height-adjustable tables can be used for both standing and sitting with minimal hassle.

Incorporate cosy corners!
The greater the variety of places to meet, the more use they will get. Take advantage of the flexibility of USM by creating spaces within spaces to provide areas for collaboration and concentrated work. USM’s wide variety of colors, Worlds of Plants concept, and cable-free integration of warm light creates a truly inviting atmosphere in a workplace setting.
54 Recreation lounge
The perfect place to enjoy a quick snack and recharge your batteries, both metaphorically and literally as USB charging points are available.

55 Team space
This well-designed team space provides a high-quality environment for your employees.

56 Reading bench
The ideal spot to sit down and read through the latest inspiring magazines.

57 Inspirational library
Customize exactly how you want your library space to look – visit usm.com to configure your space.
Living walls are becoming a trend in interior design. Semi-transparent perforated panels can be used to create freestanding shelf units. The Haller E lighting and plants can also be integrated to provide an eye-catching area within the office.
Ready to serve
This is possibly the most compact coffee cart in the market; small enough to fit anywhere!

Snack bar
This green USM Haller unit is accessible from both sides. It provides both storage and a countertop which makes it the perfect office kitchen solution. Additional drawers, doors, dividing shelves and smart accessories can also be added.

Coffee station
This compact shelving system can hold everything you need and can be reconfigured to suit your needs.

Snack counter
This counter can present selections of snacks in glass showcases and at the same time create an attractive standing bar for people to gather around.
Adaptable wall shelving
This highly flexible system can be used in conjunction with doors, create additional storage in corridors and work well with slanted ceilings, thanks to its variety of dimensions. In that way, USM turns every nook into a valuable space.
64 Wall shelving with media outlet
USM provides an elegant frame for a flatscreen making everything flush with the wall.

65 Inspirational
Gain inspiration with angled shelving that not only displays magazines but provides valuable storage behind them as well.

66 Freestanding
A study area can be integrated into a bookshelf.

67 Playfulness
Colorful accents turn this shelf with integrated work surface into a three-dimensional work of art.
A lobby, a library and a welcoming area – USM is flexible enough to create hybrid spaces.

USM is a design-led solution suitable for a variety of environments from temporary pop-up stores to more permanent branding areas in your entrance area.
Add value to your storage – love your plants!
Vibrant colors and lush green healthy plants encourage happiness. We firmly believe that green spaces are the best place to work, live and be together. With USM’s World of Plants greenery can be easily integrated. The addition of foliage creates eye-catching storage.

Dividing space, connecting people
World of Plants is ideal for zoning areas in an open-plan office space or dividing different team spaces without the need for any rigid walls.

Connectivity
With the new Lock C, the USM app can be managed intuitively and easily with three different user modes. Keep private items securely locked or allow colleagues to access.

Available as of 2022
Every employee deserves their own storage space – an impressive wall shelving solution.

This system is available on castors so that teams will always have their personal items to hand.

The new Lock C can also be used for extension shelves to create extra spacious and easily accessible storage.
Technology centre – a welcoming hub
This specially designed unit can be used to house technology such as printers and servers as well as providing shared storage and meeting space for employees.
### What’s unique about USM

**Building future-proof possibilities:**
Our core values run deep and permeate every element of what we do – from building furniture to building relationships.

</table>
Why USM Haller?

— limitless individualisation
— reconfiguration at any time
— simple integration of plants
— optimisation of acoustics
— retrofitting
— a renowned design classic

Better acoustics, better atmosphere, less stress

Room acoustics play a decisive role in determining how we feel in our built environment, whether we find the atmosphere pleasant and soothing or stressful and distracting. Where there is less noise, there is less stress, more concentration, a lower turnover of workers and fewer days lost to stress-related illness.

Various color options

14 standard colors support your individual designs.

Redesign at any time

Our key to modularity lies in the patented ball-and-tube connection.

World of Plants

for a healthy climate

Plants improve the indoor climate and thus our working environment. With USM’s worlds of plants, lively evergreen landscapes can now be easily integrated into the structure of USM Haller.

Smart accessories

Micro organization: smart accessories complement the design classic. Inos metal box sets are now available in six standard colors.

Lock securely, share easily

With the new Lock C, lockers can now be assigned and shared, managed with the USM app. Available as of 2022.
Why USM Haller E?

— energy-efficient LED ambient and functional light
— almost invisible light sources
— USB charger for mobile devices
— cable-free, electricity flows safely through the furniture’s own structure

Sensors ensure that light turns on when compartments such as drop-down doors or drawers are being opened.

Energy-efficient
24 volts (low voltage) to efficiently provide electricity to the energy-saving, long-lasting LED lights and USB chargers.

Infinitely adjustable dimming
The extra-flat transformer is an on-off switch and a dimmer in one. It is located under the piece of furniture.

Two light temperatures
Warm light and cold light – depending on purpose and preference, which can be easily switched at any time.

Modular and future-oriented
Just like everything else about USM Haller, the placement of light sources and chargers is modular – you can turn any desired part of the furniture into a power source. All elements can easily be exchanged. Trained USM sales partners can easily help plan and expand furniture supplied with electricity.

Seamlessly integrated LED tubes
USB charger for charging mobile devices
Why USM Haller desks?

- 4 models
- 20 colors and surfaces
- high individualisation with accessories
- easy electrification
- large range of dimensions from 30” to 120”
- perfect sizes match with USM Haller system

Ergonomic
The patented height adjustment system allows the height of this table to be varied continuously in the range from 27” to 34”, to meet individual user requirements. This makes the USM Haller table ideally suited for desk sharing.

Versatile
Useful accessories extend the table’s functionality and make room for a wide range of applications. An optional hinged cover integrated into the tabletop gives easy network access.

Smart electrification
Electric cables are neatly stowed away in a cable trough under the table top and can easily be accessed via grommet hatches, while adaptation points on the surface of the table allow ancillary equipment to be easily plugged in.
Why USM Kitos?

— 4 models
— 19 colors and surfaces
— high individualisation with accessories
— easy electrification
— immediate mechanical height adjustment

Ergonomic
The electronic or mechanical height adjustment system used in the USM Kitos E and USM Kitos M allows for both standing and sitting work and enables the table to be adapted to the personal requirements of its users. All the features of the USM Kitos E and USM Kitos M make them ideally suited for desk sharing and hot desking.

Versatile
The two adaptor points in the tabletop allow for easy insertion of up to four accessories, making it possible to modify the table to meet individual user requirements.

Smart electrification
Adaptation points enable movement of all electrical leads from the tabletop to the cable tray mounted under it. Depending on the model in question, the tabletop can be tilted or pushed forward for easy access to the cable underneath.

Various design options
A wide range of colors and materials support your customized designs.

Mechanical height adjustment in seconds – much faster than an electronic version and without any power consumption.

Intelligent electrification under the movable tabletop; adaptation points provide USB chargers.
USM Haller

The USM Haller system provides a wide variety of elements in standard sizes. Widths, depths and heights are indicated below. All measurements refer to the distance between axes.

Your safety matters to us. Check out the USM safety instructions now. www.usm.com/safety

Illustration: USM Haller in 20"D.

* Acoustic version available. USM Inos accessories are available in graphite black and light gray.
Application Options

1 Glass Panel
Glass elements can be illuminated throughout.

2 Without Metal Paneling
Compartments without metal paneling can be completely illuminated.

3 With Metal Paneling
Compartments with metal paneling can be illuminated from the front.

4 Compartment with an Extension Shelf
The entire compartment with an extension shelf can be illuminated.

5 Drop-Down and Extension Door
Via the “Light When Compartment Is Open” function, the light automatically turns on when the door is opened.

6 Angled Shelf
The presentation space is illuminated from the front.

Floor Lighting
With floor lighting, the light shines at a 25-degree angle under the furniture.

8 Ambient Lighting
The light is directed vertically towards the back, illuminating the surroundings with a warm glow.

9 e-USB Charger
Provides a voltage of 5 volts to the connected device. (Capacity: 6.5 W)

USM Haller Table

For the Advanced table type, a cable tray integrated under the tabletop offers storage room and attachment options for all cables and technical components. For the traditional USM Haller Table and the USM Haller Plus, a cable basket can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. 14”H or 28”H. Available for the following table sizes: 120”W, 98”W, 80”W, 79”W, 69”W, 52”W, 47”W.

Cable duct
The classic USM Haller table can be updated with a black aluminum cable duct section, with lugs that fold open on both sides, to integrate cables. This enables the table depths to be expanded to the EU standard of more than 30”. Available for the following table sizes: of 79”W, 69”W, 59”W, 49”W, 39”W, 35”W, 30”W.

CPU holder
Computers in various sizes can be mounted using a simple holding device under the table.

Link chain
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

Flat screen pivot arm
Screws are screwed to the height adjustable pivot arm using a mounting plate (VESÁ standard). Available for USM Haller classic desk. The pivot arm can be mounted onto the table edges with the universal holder or into the table leg using an assembly tube. Available for USM Haller Plus and Advanced: The bracket can be connected directly to one of the adaptation points. Up to two screens (max. 2 x 26 pounds) can be attached using a mounting plate (VESÁ standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

Tabletop
For the Advanced table type, a cable tray integrated under the tabletop offers storage room and attachment options for all cables and technical components. For the traditional USM Haller Table and the USM Haller Plus, a cable basket can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. 14”H or 28”H. Available for the following table sizes: 120”W, 98”W, 80”W, 79”W, 69”W, 52”W, 47”W.

Material tray
Provides room for writing instruments and can be discreetly stowed under the tabletop.

USM Privacy Panels
Can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. Available for the following table sizes: 120”W, 98”W, 52”W, 30”W and depths: 39”D, 30”D.

Flat screen support bar
The bracket is inserted into the adaptation points. Up to two screens (max. 2 x 26 pounds) can be attached using a mounting plate (VESÁ standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

Flat screen support bar adjustable
Move forwards or backwards two notches at a time to adjust the viewing distance.

Accessories for all USM Haller Desks

1 Grommet
For network access. Flush hinged cover set into the tabletop for easy network access, can be positioned right or left.

2 Cable management
For the Advanced table type, a cable tray integrated under the tabletop offers storage room and attachment options for all cables and technical components. For the traditional USM Haller Table and the USM Haller Plus, a cable basket can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. 14”H or 28”H. Available for the following table sizes: 120”W, 98”W, 80”W, 79”W, 69”W, 52”W, 47”W.

3 CPU holder
Computers in various sizes can be mounted using a simple holding device under the table.

4 Link chain
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

5 Flat screen pivot arm
Screws are screwed to the height adjustable pivot arm using a mounting plate (VESÁ standard). Available for USM Haller classic desk. The pivot arm can be mounted onto the table edges with the universal holder or into the table leg using an assembly tube. Available for USM Haller Plus and Advanced: The bracket can be connected directly to one of the adaptation points. Up to two screens (max. 2 x 26 pounds) can be attached using a mounting plate (VESÁ standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

5a Continuous height adjustment
For screens weighing up to 26 pounds.

6 Front and side panel
A black mesh fabric can be attached to the back or the side under the table frame. Available for the following table sizes: 79”W, 69”W, 59”W, 49”W, 39”W, 30”W and depths: 39”D, 30”D.

7 Material tray
Provides room for writing instruments and can be discreetly stowed under the tabletop.

8 USM Privacy Panels
Can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. Available for the following table sizes: 120”W, 98”W, 52”W, 30”W.

Accessories for USM Haller Desk Plus / Advanced

9 Flat screen support bar
The bracket is inserted into the adaptation points. Up to two screens (max. 2 x 26 pounds) can be attached using a mounting plate (VESÁ standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

9a Flat screen support bar adjustable
Move forwards or backwards two notches at a time to adjust the viewing distance.

10 USB adapter
Suitable for USB 3.0 and 3.0 ports; it can be easily inserted into the adaptation point. Usable as power supply or for data transfer.

11 Lamp peg
An optional lamp peg for easy attachment of traditional table lamps. Electrification is possible through the adaptation point.

Options
- Flat screen support bar
- Flat screen support bar adjustable
- Lamp peg

**USM Kitos M and E Desk**

Each desk (except free-standing) of the USM Kitos M and E family offers integrated smart solutions for electrification.

---

### Why USM Kitos M?

The “M” in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 sec. with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

### Why USM Kitos E?

Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.

---

### 1. Grommet hatch for network access

Flush-hinged cover set into the tabletop for easy network access, can be positioned at two different locations.

### 2. CPU holder

Computers in various sizes can either be mounted using a simple holding device under the height-adjustable tabletop or attached to the table column.

### 3. Link chain

Holds and directs cables to the power source. Flexible and adjustable to various lengths.

### 4. USM Privacy Panels

Can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. 14”H or 28”H. Available for the following table sizes: 59”, 89”, 69”, 63”W.

### 5. Flat screen pivot arm

Screws are screwed to the height-adjustable pivot arm using a mounting plate (VES A standard). Available for USM Kitos E/M desk. The pivot arm can be mounted onto the table edges with the universal holder. Available for USM Kitos M and E Plus. The bracket can be connected directly to one of the adaptation points.

### 6. Front panel

A black mesh fabric attaches to the front under the tabletop. Available for the following table sizes: 59”, 89”, 69”, 63”W.

### 7. Material tray

Provides room for writing instruments and can be discreetly stowed under the tabletop.

---

### Basic desk

- Integrated cable tray underneath the tabletop
- Extra size: Integrated cable tray accessible from above by sliding back the tabletop

### Sliding tabletop

- With or without middle traverse
- Adjustment time approx. 30 sec. With middle traverse

### Side table

- Integrated cable tray underneath the tabletop
- Adapter points for accessories

---

### USM Kitos M

- 28”–47”H
- 70”W/30”D
- 69”W/30”D
- 63”W/32”D

### USM Kitos M Plus

- 28”–47”H
- 70”W/30”D
- 69”W/30”D
- 63”W/32”D

### USM Kitos M Meeting

- 28”–47”H
- 99”W/40”D
- 89”W/40”D

---

### USM Kitos E

- 70”W/35”D*
- 69”W/30”D
- 63”W/32”D*
- Available with E1, E2 or E3** columns

### USM Kitos E Plus

- 70”W/35”D*
- 69”W/30”D
- 63”W/32”D*
- Available with E1, E2 or E3 columns

### USM Kitos E Meeting

- 99”W/50”D
- 99”W/40”D
- 89”W/40”D

### USM Kitos E Free-standing

- 29”H or 28”–43”H
- Square: 30”W/30”D or 35”W/35”D
- Round: Ø 35” or 43”

---

### Accessories for USM Kitos M and E Desks

1. Grommet hatch for network access
2. CPU holder
3. Link chain
4. USM Privacy Panels
5. Flat screen pivot arm
6. Front panel
7. Material tray

---

**Accessories for all USM Kitos M and E Desks, except USM Kitos M Meeting / E Meeting**

1. **Flat screen support bar**
   - The adapter is suitable for USB 2.0 and 3.0 ports. It can be inserted easily into the adaptation point. Usable as power supply or for data transfer.

---

**Option**

- Flat screen support bar fix
- Flat screen support bar adjustable

---

**Not available with USM Kitos M Meeting / E Meeting**

- Grommet hatch for network access
- CPU holder
- Link chain
- USM Privacy Panels
- Flat screen pivot arm
- Front panel
- Material tray

---

* Available with or without middle traverse
* Available in a GS-Mark version with 0.12” table edge radius and tested version with 0.12” table edge radius
* Available with or without middle traverse
* Available in a GS-Mark version with 0.12” table edge radius and tested version with 0.12” table edge radius
* Available with or without middle traverse
* Available in a GS-Mark version with 0.12” table edge radius and tested version with 0.12” table edge radius
Available at a fixed height, with stepwise or free-flow height adjustment, which can be adjusted electronically.

**USM Kitos Desk**

**Rectangular**

**USM Kitos Rectangular**

- **29”H**
- **70”W/35”D**

---

**Accessories for all USM Kitos classic desks**

1. **Universal support**
   Mounts to the table support or directly to the tabletop to hold various accessories.

2. **Flat screen pivot arm**
   Screens are screwed to the height-adjustable pivot arm using a mounting plate (VESI standard). This can be mounted onto the tabletop using the universal support (1).

3. **Cable duct**
   Black aluminum profile to accommodate power strips (6) and cables. With a hinged cover on both sides. Available for the following table lengths: 70”W, 69”W, 59”W.

4. **USM Privacy Panels**
   Can be attached to the long side to ensure individuality and privacy for people working at tables configured as a block station. 14”H or 28”H. Available for the following table sizes: 70”W, 69”W, 59”W.

5. **Link chain**
   Holds and directs cables to the power source. Flexible and adjustable to various lengths.

6. **CPU holder**
   Mounts to the table supports. Height-adjustable and rotating. An adjustable strap ensures a secure fit for most standard CPUs.

7. **Cable wire basket**
   Mounts to the underside of the work surface.

8. **Material tray**
   Mounts and pivots out from under the table surface.

*Not available in glass.
USM Privacy Panels

USM Privacy Panels are a flexible and extendable modular system made up of individual panel units. Each panel unit consists of two layers of molded polyester fabric with a tubular cross-beam. They can be used in a free-standing version or mounted on tables to divide up the work space, ensure privacy and absorb unwanted noise.

The panels are available in two sizes, a smaller version measuring 10 × 14” and a larger version measuring 30” × 14”. These dimensions are chosen to match those of USM Haller storage and desks. All measurements refer to the distance between axes.
