ATHLETE PLUS[®]

FIRST CHOICE OF
CHAMPION TRAINERS

PERFORMANCE NUTRIENT PROFILE

High performance horses require specialty nutrition to support training, performance and recovery. ATHLETE PLUS[®] is fully fortified with elevated levels of heat stable vitamins and chelated mineral proteinates, quality protein and elevated antioxidant levels, specifically formulated to meet the nutritional needs of the elite equine athlete.

TRAINER'S CHOICE OF GRAIN

ATHLETE PLUS[®] is a concentrated formula with a low feeding rate allowing the addition of selected grain whilst providing premium nutrition for performance. This provides flexibility to tailor and refine diets to meet the needs of individual horses at every stage of training.

QUALITY PROTEIN

Quality protein, containing essential amino acids, is required to develop strong muscle and healthy body tissue. The amino acid profile of ATHLETE PLUS[®] promotes protein synthesis and the development of strong, lean muscle, essential to support high performance horses.

ENHANCED DIGESTIVE SUPPORT

ATHLETE PLUS[®] is processed using micronization technology, utilising infrared heat to improve digestibility and palatability. As a low starch feed, ATHLETE PLUS[®] is the ideal choice to support overall digestive health.

LOW FEEDING RATE

ATHLETE PLUS[®] delivers essential nutrients in a highly concentrated form, ensuring your horse's vitamin and mineral requirements are met at a low feeding rate. This makes ATHLETE PLUS[®] the ideal choice for 'good doer' performance horses or owners/trainers seeking flexibility in grain fed alongside.

BONAFIDE[®] ADVANTAGE

Bone strength is critical to both healthy development and soundness of all horses. ATHLETE PLUS[®] is fortified with Quinaquanone[®] (the active constituent of Bonafide[®]), a bio-available form of Vitamins K1 and K2, which are required for the effective activation of osteocalcin which is involved in bone formation.

ANALYSIS AS FED (PER 1KG)

DIGESTIBLE ENERGY (DE)	12.5 MJ	Chloride	30 g	Vitamin B1 (Thiamin)	27 mg
CRUDE PROTEIN	22 %	Copper	206 mg	Vitamin B2 (Riboflavin)	14 mg
CRUDE FAT	12 %	Zinc	430 mg	Vitamin B3 (Niacin)	54 mg
CRUDE FIBRE (MAX)	10 %	Manganese	275 mg	Vitamin B5 (Pantothenic Acid)	29 mg
STARCH	10 %	Iron	180 mg	Vitamin B6 (Pyridoxine)	8 mg
SALT (MAX)	4 %	Iodine	3.5 mg	Vitamin B9 (Folic Acid)	12 mg
Lysine	13 g	Selenium	1.2 mg	Vitamin B12 (Cobalamin)	60 µg
Methionine	4.5 g	Vitamin A	27,000 IU	Biotin	1,300 µg
Calcium	17 g	Vitamin D	4,000 IU	Choline	1,800 mg
Phosphorous	9 g	Vitamin E	820 IU		
Magnesium	6 g	Vitamin C	1,000 mg		
Sodium	13 g	Vitamin K	4.7 mg		
Potassium	20 g	Quinaquanone [®] (Vitamins K1 & K2)	4,666 µg		

INGREDIENTS

Micronized Beans, Micronized Lupins, Sunflower Seeds, Canola Meal, Lucerne Meal, Millrun, Soybean Meal, Canola Oil, Rice Bran Oil, Molasses, Calcium Carbonate, Dicalcium Phosphate, Magnesium Oxide, Potassium Chloride, Salt, Mitavite[®] Vitamin and Mineral Premix (Including Heat Stable Vitamins and Chelated Mineral Proteinates), Lysine, Methionine, Vitamin C & Quinaquanone[®] (Active Constituent of Bonafide[®], Bio-Available Vitamins K1 & K2).

FEEDING GUIDE (PER DAY)

Body Weight	Moderate Work Pre-Training	Heavy Work Racing
400kg	1 kg	1.5 kg
500kg	1.5 kg	2 kg
600kg	2 kg	2.5 kg

MITAVITE[®] ATHLETE PLUS[®] is a concentrated formula with a low feeding rate allowing the addition of selected grain (e.g. oats, EXTRU[®] CORN or EXTRU[®] BARLEY) whilst providing premium nutrition for performance. Alternatively, ATHLETE PLUS[®] can be fed without added grain, ideal for high performance horses that are naturally 'good doers' requiring elevated levels of vitamins, minerals and protein at a low feeding rate.

Roughage (pasture, hay, chaff, beet pulp etc.) should be fed at a minimum of 1.5-2% of bodyweight. Total daily feed (hard feed + roughage) should be 2-3% of bodyweight depending on age, workload & climate. Feeding rates intended as a guide only. All variables should be taken into consideration.

Mitavite[®] (a division of the Hygain[®] Group)
