# ECONOMIX®

VERSATILE NUTRITION FOR  
ACTIVE HORSES

## BALANCED NUTRIENT PROFILE

ECONOMIX® is fortified with a premium blend of vitamins and chelated minerals to meet the nutritional requirements of a wide range of horses and activity levels, ranging from pleasure to performance. Fed in conjunction with roughage, you can trust ECONOMIX® to provide your horse with its daily nutrient requirements.

## ENHANCED DIGESTIVE SUPPORT

ECONOMIX® is produced using steam extrusion technology which utilises heat and pressure to reconfigure starch molecules (gelatinisation). Starch gelatinisation significantly increases grain digestibility and nutrient utilisation within the small intestine, thereby reducing the burden on the hindgut and minimising risk of dietary induced disturbance.

## COOL CONDITIONING FORMULA

Your horse's condition is a key indicator of overall health and wellbeing. The combination of extruded barley and the cool conditioning properties of oil make ECONOMIX® the ideal choice for weight gain and conditioning.

## SUITABLE FOR ALL AGES AND DISCIPLINES

ECONOMIX® is suitable for a wide range of horses and ponies, simplifying feed time. Providing conditioning ingredients, coupled with quality nutrients, ECONOMIX® maintains optimal condition whilst supporting the health and wellbeing of your horse or pony.
