INSTALLATION GUIDE

Be a part of nature.

Our handcrafted 3D wall decorative panels are specially designed to be the centrepiece of your home. It will add warmth, depth and texture to any room. The possibilities to incorporate these modular 3D wall panels into your commercial or residential designs are endless. A creative re-creation of recycled small wood pieces gives a “Back to Nature” ambience on your featured wall of choice either in your living, dining or bedrooms to create a cosy environment. Wood easily blends in with any design and gives out a warm therapeutic feeling that no other materials can achieve. Product can be easily assembled and attached at the end of the catalogue is an assembly guide for your convenience.

Minimalist designs are still in trend and with often smaller home layout, homeowners often do not have enough space to show off their ideally designed home.

Sitra Global’s indoor wall panels would be ideal for homeowners to tastefully display some decoration on their walls and be a part of nature.

Quality is our assurance.

All our products undergo stringent quality control checks during the entire manufacturing process so it does not fear the stand of time.
