PRODUCT BOOK

SMART APPLIANCES

Smart life is now more accessible

About GoveeLife

At GoveeLife, we are committed to offering effortless life experiences through our innovative smart home appliances. Operated as an independent brand from Govee, we aim to simplifying life by making smart living accessible to everyone, allowing users to enhance their lifestyle with the ease and functionality of advanced smart appliances.

More Convenient Control

- Govee Home App remote control
- Alexa/Google voice control

More Effortless Auto Control

- AutoReflect™: More automatic and precise temperatures via connected thermometer.
- More home automation control via connection with sensors and other appliances

24 Inch

COMMON ATTRIBUTES

• HeatBooster Solution:

With featured PTC ceramic heating solution and upgraded structure, the heater can heat up in 2s.

• AutoReflect™ :

With the new generation of the AutoReflect™ algorithm, the heater can interconnect with a Govee/GoveeLife thermo-hygrometer to achieve target temperatures accurately, keeping temperature constant with less error.
