

Safety Instructions

Read and follow all the safety instructions:

- The lamp is not waterproof. Avoid exposing it to splashing or dripping water.
- The operating temperature should be within -10° to 45°C (14° to 113°F).
- The lamp's internal light source cannot be replaced. If it breaks, you must replace the entire lamp.
- Do not install the lamp with a dimming driver.
- Do not place the lamp near the heat source or expose it to the sunlight for a long time.
- Avoid installing the lamp near potentially dangerous sources (e.g., candles, liquid-filled objects).
- Avoid charging the product in environments lower than 32°F (0°C) or higher than 113°F (45°C). Avoid using the product in environments below -4°F (-20°C) or above 140°F (60°C).

Introduction

Thanks for choosing the Govee Portable Lamp. This lamp emits warm and smooth white lighting, and you can also apply over 16M RGB lighting effects via connecting to the Govee Home app.

Troubleshooting

❶ Cannot connect to the Govee Home app.

- Check if the device is powered on.
- Check if Bluetooth on the smartphone is enabled, or try connecting with another smartphone.
- When connecting for the first time, ensure the smartphone is near the device.
- If the connection error still exists, please delete the connected device from “My Devices” on the app. Reconnect to the Govee Home app by following the instructions provided previously.

❷ How long will the battery last after fully charged?

- When powered by the battery, the lamp will automatically turn on energy-saving mode for better battery life.
- With the warm white lighting, the battery can last for 4 to 5 hours. It can last longer with colored lighting.

❸ How to check the battery status of the lamp?

- You can check the battery status on the Govee Home app after connecting via Bluetooth.

❹ Can multiple users control one device?

- Each device can only be controlled by one account.
- If multiple users want to manage the same device, ensure they all use the same account.

When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems separate from each other.
Be aware discharged battery may cause fire or smoke, tape the terminals to insulate them

CAUTION: Risk of explosion if the battery is replaced by an incorrect type.
WARNING: The batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
Extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil nedit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC and IC Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

la distance entre l'utilisation et l'appareil ne doit pas être inférieure à 20 cm.
