|---------------------|-----------------------------|
| Length | 2 × (0.5m+0.7m+0.7m+0.5m) |
| Color | RGBIC |
| Power Supply | Vehicle Battery |
| Voltage | 12-24V |
| Control Way | App via Bluetooth |
| Working Temperature | -20°C - 45°C (-4°F - 113°F) |

Installing Your Strip Light

1 Preparation Before Installing

- Unpack the box and check whether all items are intact;
- Power on the strip light to check whether it works well;
- Connect the DC wires to the power brick;
- Fix the DC wires on the engine compartment near the battery;
(Notice: Do not fix on the part that easily gets hot.)
- Connect positive DC wire (red) and negative DC wire (black) to correct poles of the engine.

2 Installing Steps:

- Wipe off the installing surface. Make sure it's clean, dry and smooth;
- Remove the protective film from the adhesive tape and stick the strip light;
(Notice: Do not move the strip light to other places once attaching.)
- Remove air bubbles between the strip and surface by pressing the strip from end to end, and fix the fastener by screws to the strip;
- Power on the strip and start to use.

Connecting the Strip Light to the App

- Turn on Bluetooth in your mobile phone;
- Open Govee Home app and tap "+" icon in the top right corner;
- Select "H7092" in the device list;

FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

(1) L'appareil ne doit pas produire de brouillage, et

(2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC and IC Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.

This Class B digital apparatus complies with Canadian ICES-005.

Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.
