Product Datasheet

Anti-Flrt3 Antibody FL550 Conjugate

Overview

Catalog #	75-328-FL550
Conjugate	FL550 Ex: 550 nm, Em: 575 nm
Isotype	lgG1
Clone Number	N353/13
Size	200 μL
Concentration	0.5 mg/mL
Host Species	Mouse Monoclonal
Format	Purified by Protein A chromatography
Buffer	PBS with 0.09% azide
Applications	ICC
Species Reactivity	Mouse
Immunogen	Fusion protein amino acids 29-526 (extracellular domain) of mouse Flrt3 (accession number Q8BGT1) produced recombinantly in E. Coli
Molecular Weight	73 kDa
Cite this Antibody	Antibodies Inc Cat# 75-328-FL550, RRID: AB_2940137

Details	
	Fibronectin Leucine Rich Transmembrane Protein 3 is encoded by the gene FLRT3. FLRT3 is a member of the fibronectin leucine rich transmembrane (FLRT) family. FLRT3 functions in cell-cell adhesion, cell migration, and axon guidance, exerting an attractive or repulsive role depending on its interaction partners. FLRT3 is expressed in adult brain, embryonic rostral thalamus neurons, and the neonate eye. Diseases associated with FLRT3 included Hypogonadotropic Hypogonadism 21 With or Without Anosmia, Kallmann Syndrome, and Hypogonadotropic Hypogonadism 7 With or Without Anosmia.

Storage

Aliquot and store at \leq -20°C for long term storage. For short term storage, store at 2-8°C. For maximum recovery of product, centrifuge the vial prior to removing the cap.

Our Guarantee

As an original manufacturer, we are dedicated to creating quality and reproducible antibodies that further your research. We provide personalized customer support from the scientists that made the antibody and offer a free replacement or 100% refund if we cannot resolve an issue. Order today and experience our 50+ year passion for science.

Note: For research use only. Not intended for therapeutic or diagnostic use. Use of all products is subject to our terms and conditions, viewable on our website.
