

OUTDOOR CUSHION COVERING

Made from highly durable 100% Olefin, seat cushion coverings ready styles for outdoor enjoyment, with their UV-resistant, water-repellant and quick-drying abilities.

Care for Your Outdoor Cushion Covering

- > Iron fabric on lowest heat setting to release wrinkles that may form while in packaging.
- > Machine wash on gentle cycle then tumble dry on low heat, spot-cleaning any visible markings by hand before machine washing. Do not over-dry. Dry cleaning is not recommended for Olefin-based fabrics.
- > To prolong life of fabric, we recommend removing outdoor cushions from direct sunlight and other elements when not in use.
