Lite - Your livestock in your pocket

Pro - Better planning for the future

New

Why Dashboard

Why Dashboard Lite ?

- I need a simple way to get my data moving
 - To give staff access to data
 - To send to my advisors
- I want my animal data with me at all times
 - To be able to look up an animal's details
 - To show somebody in my business network a weighing session
- I want to be able to record animal observations directly into my phone in real time and be able to recall these when in the yards

Why Dashboard Pro ?

- I want to simplify animal recording tasks
- I have multiple farms and want to keep track of their progress
- I want to track the performance of different groups of animals and assess the impact of my feed and animal health regime.
- I want to slice and dice my animal data to make more informed management decisions, including drafting animals into different treatment groups
- I want to keep track of my mating, calving and lambing records to drive genetic gain and provide a valuable record of my herd or flock's performance and worth.
- I want proof of my animal husbandry practices to support farm assurance programme audits

Manage your animals like never before

Whether you're at home on your PC or tablet, or out on farm with your phone get a simple quick view of crucial animal data.

Dashboard - Your livestock in your pocket

Check individual animal history and weight gain, all from the palm of your hand.

Take the office with you - view mob live weights, pedigree charts and more with Dashboard Pro at your dining table.

Look up animal details from visual or EID number and record notes right then and there.

Check what's going on back at the farm while you're away. Then relax.

Dashboard - Livestock

Manage your animal information like never before – at home on your PC or tablet, or out on farm with your phone. A simple, quick view of crucial animal data whenever and wherever you need it. Retrieving information is made easy with Gallagher’s new web and mobile product, Dashboard.

	Lite	Pro

Review animal information collected on multiple farms in one place		▪

Dashboard Lite

Check and record your animal data on your phone when you're out and about on farm

Lift your profits

Track weight gain to sale or mating. Analyse which animals are doing well and which are holding you back.

Share sessions

Synchronise data from your weighing and EID equipment with your PC and phone then share sessions with staff to ensure the most up to date information is being used.

Information at your fingertips

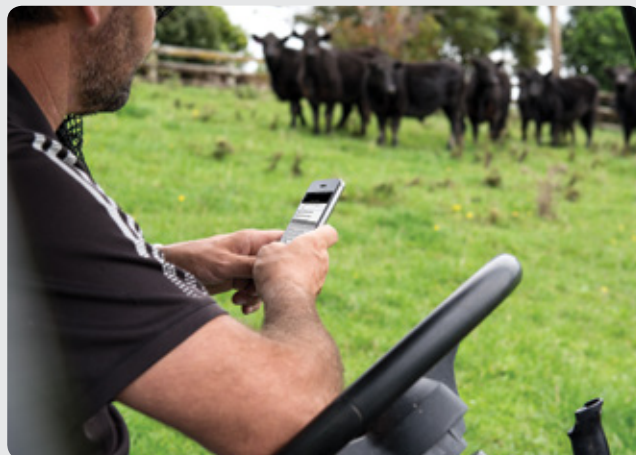

Look up a weighing session or an individual animal's history to get a quick view of crucial animal data whenever or wherever you need it.

Real time recording

Record real time observations on your phone to guarantee accurate and timely data for better decision making.

Dashboard Lite

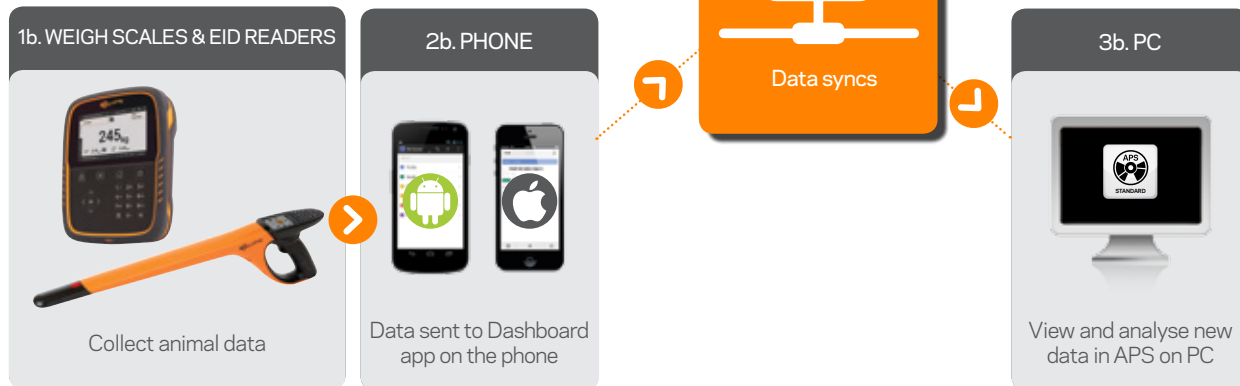

Sharing & Syncing Animal Information

However you want to collect, review and use your animal information, Dashboard makes it easy to share and sync all the information between all of your devices.

Scenario 1

Scenario 2

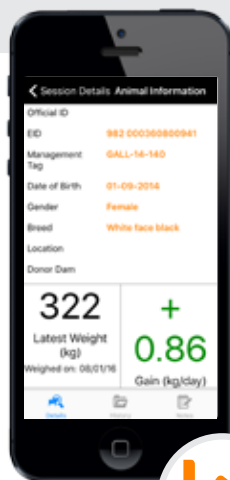

Dashboard Lite - Your livestock in your pocket

Dashboard Lite lets you check and record animal data on your phone when you are out and about on your farm

Lift your profits

Make the most out of your animals

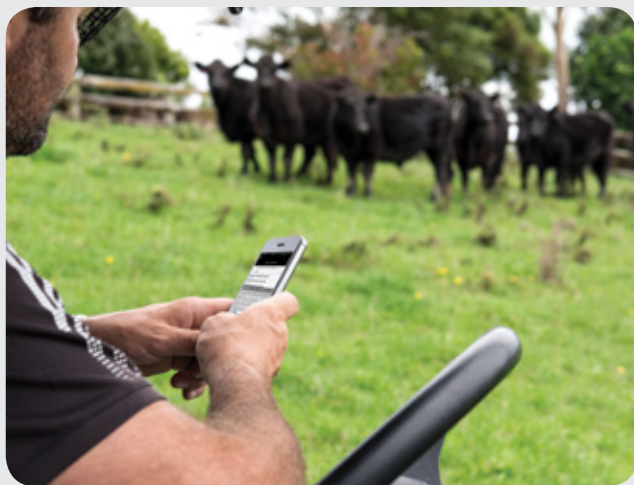

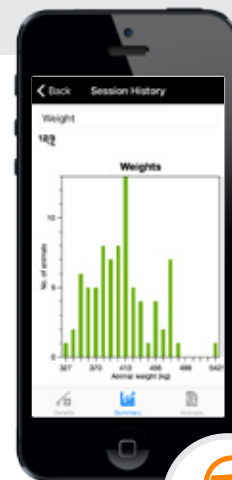

Track weight gain to sale or mating. Analyse which animals are doing well and which are holding you back.

Information at your fingertips

Instant data recall

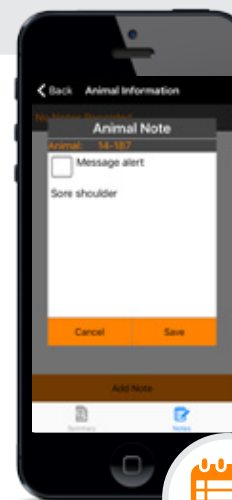

Look up a weighing session or an individual animal's history to get a quick view of crucial animal data whenever or wherever you need it.

Real time recording

Eliminate the paper trail

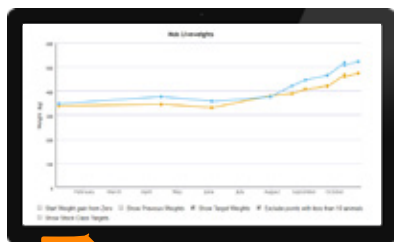

Record real time observations on your phone to guarantee accurate and timely data for better decision making.

Dashboard Pro - Better planning for the future

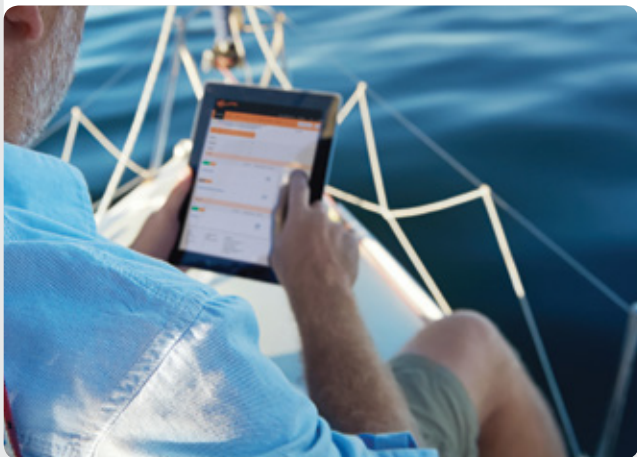

Record, Review, Analyse, Decide. Dashboard Pro holds one version of the truth about your animals, allows you to monitor progress to target and evaluate scenarios to better plan for the future, anywhere you are.

Benchmark to drive efficiency

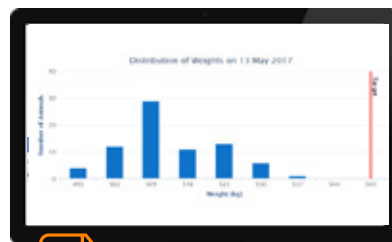

Identify top performers

Compare different mobs, bloodlines, breeds, feed regimes or animal health programmes. Bring in kill sheet data to benchmark liveweight to carcase weight for different groups of animals.

Hit your targets with confidence

Monitor to keep animals on track

Set targets for different classes of livestock and monitor through the Dashboard Pro report. Intervene early if animals are not on track and make smarter management decisions to ensure targets are met.

Lift Profits

Track weight gain to sale or mating. Analyse which animals are doing well and which are holding you back.

Dashboard Pro - Better planning for the future

Record, Review, Analyse, Decide. Dashboard Pro holds one version of the truth about your animals, allows you to monitor progress to target and evaluate scenarios to better plan for the future, anywhere you are.

Smarter drafting decisions

Draft on data rather than eye

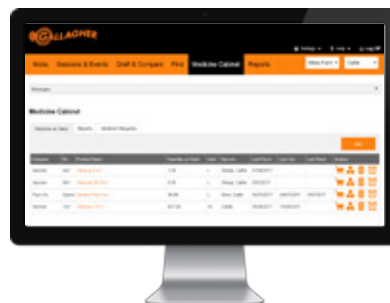

Use weight, weight gain or life data, such as pregnancy scan or treatment to sort animals and plan smarter drafting and management policies

Easy and accurate traceability

Simple traceability conception to farm gate

Forget the fear of a pending audit. Dashboard Pro enables you to do an instant recall of all livestock operations including what treatments an animal has had. All information is at your fingertips with Dashboard Pro's medicine cabinet and treatment records

Real time recording

Eliminate the paper trail

Record real time observations on your phone to guarantee accurate and timely data for better decision making.

Quickstart guide

1. Create an account:

Enter credit card details to sign up

<https://secure.appsonfarm.com/signup>

Note: Free trial will commence once subscription is complete. Subscription can be cancelled at any time.

2. Download the apps

(Two mobile devices can be registered per subscription)

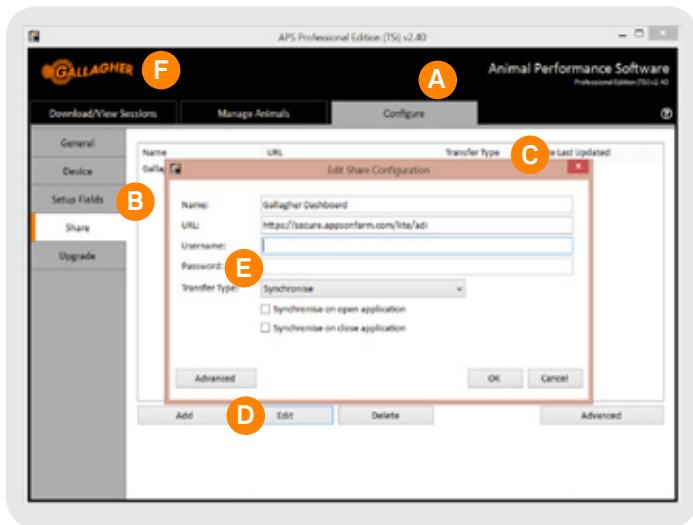

Search for Gallagher Dashboard on the Google Play Store for your Android phone or the App Store for your Apple iPhone.

3. Syncing with Gallagher Animal Performance Software (APS):

Update to latest version

Download and update to the latest version of APS PC software here <http://am.gallagher.com/downloads/>

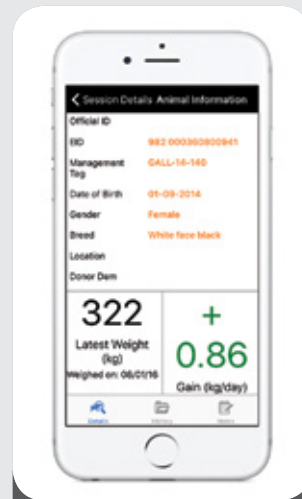

Sync with Dashboard

- A** Open APS, select the Configure tab at the top
- B** Select Share from the left hand side menu
- C** Select 'Gallagher Dashboard - Lite' from the list
- D** Select EDIT button
- E** In the dialogue box enter your username and password and select OK to save
- F** Select the Download/View sessions tab at the top to begin transferring data to Dashboard.

On your Phone

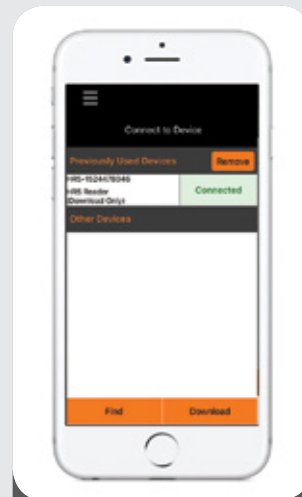

1. Select a weighing session from the session list to view a summary.

2. Select an individual animal to see latest performance and history.

3. View past notes or enter a new one from the notes.

4. Select 'Download Sessions' to connect to the Weigh Scale or Reader and import new sessions.
