# ENVIRONMENTAL DATA SHEET

# NON INSULATED STEEL ACCESS DOOR

Non-insulated access doors are built in order to access anything that is found behind a wall or a ceiling. Since the elements that are located behind such walls or ceilings vary immensely, Cendrex's access doors are available in different dimensions and materials. In addition, different options are also complementary to this product.

Model: General purpose access door

# PRODUCT CONTRIBUTION SUMMARY

### LEED® v4 requirements for Building Design + Construction (BD+C)

New Construction, Core and Shell, Schools, Retail, Data Centers, Warehouse and Distribution Centers, Hospitality and Healthcare.

#### LEED® v4 requirements for Interior Design + Construction (ID+C)

Commercial Interiors, Retail and Hospitality.

MATERIALS AND RESOURCES		PRODUCT CONTRIBUTIONS	
MR	Building Product Disclosure and Optimization — Sourcing of Raw Materials Option 2: Leadership extraction practices (1 point) Requirements - Use products that meet at least one of the responsible extraction criteria: Recycled content, Wood products Certification, Bio-based materials, Extended producer responsibility.	Contribute	ATTRIBUTES  Recycled content Pre-consumer: 18.73% - 20.90% Post-consumer: 29.96% - 66.62%
MR	Building Product Disclosure and Optimization  — Material Ingredients  Option 1: Material ingredients reporting (1 point)  The product contributes to this credit due to the availability of Health Product Declarations®. They are valued as 1 whole product out of the 20 needed for the purposes of credit achievement.	Contribute	INGREDIENTS AND EMISSIONS HPD® version 2.2 Health Product Declaration® Excludes ALN-GYP product
INDOOR ENVIRONMENTAL QUALITY		PRODUCT CONTRIBUTIONS	
EQ	Low-Emitting Materials Option 1: Product category calculation (1-3 points)  Number of points is dependent on the LEED® rating system and the number of compliant categories.	Contribute	INGREDIENTS AND EMISSIONS  Powder-coated steel is excluded from the scope of this credit. Moreover, powder-coated metals are inherently nonemitting sources.

It is important to consider that the total amount of possible points reflects the number of achievable points in each credit category. The product itself cannot achieve this score, as defined above, but is considered as a beneficial element in order to achieve LEED® credits.
