

Heavy-duty EPDM plug cover with snug fit seals out dirt or debris from your Aquor hydrant or outlet. Doubles as a weatherproofing gasket between your hydrants faceplate and mounting surface.

- Keeps dirt and debris out of hydrant
- Easy to install, no need to shut off water
- Simple, discreet, flush-mounted
- Heavy-duty EPDM

Compatibility	Hydrant V1/V1+, RV City Water Inlet, Universal Hydrant
Install Required	Yes
Cover Material	EPDM
Color	Black
Warranty	10 Years
SKU	C-DW2

Installation

1. Remove existing cover by releasing hydrant mounting screws. There is no need to shut off the water supply or disconnect from plumbing.
2. Slide the existing cover up to remove. New cover must be installed BEHIND the hydrant faceplate.
3. Replace mounting screws to secure assembly to wall.
4. Check cover alignment and operation.
