EAU DE TOILETTE SPRAY 50ML

PERFUMES OF PURPOSE

About Us

As a 21-year-old, I was working in the fragrance industry, spraying fragrance for large global fragrance brands.

I became very ill with chronic fatigue-like symptoms that knocked me off my feet every day at such a young age, I was flattened.

After many tests, the naturopaths found a chemical build-up in my body. I was full of toxins and it was caused by the chemicals in the fragrances I was spraying.

I was forced to leave the job that I loved and cleanse my system I did, I got better, however, I couldn't wear perfume for years...

I felt upset to leave the house without a spray of my fav fragrance and the sense of confidence it gives you when you smell amazing.

It's a confidence thing, when you smell great, you feel great...and people notice, and this is how... STARSIGN SCENTS was born...
