

HT600

Key Features

Clamshell

Top Pressure Plate – The handle attaches to a 4"x5" pressure plate on the top platen instead of a single screw going into the top platen. This provides more even pressure on the outside edges of the press (think of it as pushing down with your entire hand, versus just your thumb).

Display

Easy integrated digital time and temperature settings – Touch-screen controller allows simple dialing in of time and temperature. The current pressure is displayed on the touch-screen display each time the press closes.

Design

The HT-600 now comes with a free Splitter Stand, allowing for the operators to “dress” the shirt easily over the lower platen, keeping the back of the shirt positioned underneath the machine and away from the heat and compression. This is handy when trying to avoid double-compression and heating of a previously applied transfer on the same shirt.

Overview

The HIX HT-600 Clamshell Press is rugged, durable, and made to perform. A must-have for any serious start-up business, the HIX HT-600 has earned respect for its numerous capabilities and reliability.

The easy-to-use open-and-close handle has spring assist and a full range pressure adjustment, provides even pressure on thicker items, and adds 20% more pressure over straight handle designs.

Specifications

Dimensions	21" W x 33" D x 23" H	Heat Platen Dimensions	16" x 20"
Weight	95 lbs	Watts	1750W and 2000W
Shipping Weight	-- lbs	Maximum Substrate	1/2"
Volts	120V and 220V		
Amperage	14.5 A and 10A		

100% Made in the USA – HIX has its own 110,000 sq ft manufacturing facility with its very own fully integrated aluminum foundry, CNC mill operation, welding, metal forming, wiring, fabrication, assembly, and packaging departments.
