

SwingMan25

Key Features

Press

The HIX SwingMan 25 sets the industry standard in heat press design for sublimation and textile heat transfer production. This will provide incredible advantages to the operator – reducing fatigue and increasing productivity.

Display

Easy integrated touch-screen controller including a digital timer reading in minutes and seconds, digital temperature settings that range up to 450° F, and full-range repeatable pressure adjustments for items up to 1-3/4" thick.

Design

The SwingMan 25 20" x 25" platen opens up more opportunities for cut-and-sew manufacturers, signage, and sublimation applications that cover a multitude of substrates. Not only can you press larger items, but the increased size also allows you to press multiple smaller items in one press – perfect for increased production!

Overview

The SwingMan 25 is perfect for applying oversized designs on the full front of a shirt. It will also be able to accomplish jobs such as applying reflective stripping or names to 3XL and 4XL shirts in one pressing. You can even press an 18" x 24" ceramic tile mural in one cycle, saving you time and money.

Specifications

Dimensions	31" W x 43" D x 25" H	Heat Platen Dimensions	20" x 25"
Weight	--- lbs	Watts	2000W
Shipping Weight	208 lbs	Maximum Substrate	1 3/4"
Volts	220V		
Amperage	10A		

100% Made in the USA – HIX has its own 110,000 sq ft manufacturing facility with its very own fully integrated aluminum foundry, CNC mill operation, welding, metal forming, wiring, fabrication, assembly, and packaging departments.
