72-A

Graphic Press Wash / Spray & Wipe

GENERAL DESCRIPTION

72-A is designed for all inks, especially vinyl, epoxy, solvent-base, enamel and UV inks. This product will perform as a press wash when changing colors between jobs and/or as a screen opener for continuous printing. 72-A will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary. 72-A immediately liquifies the ink and dries quickly, leaves no film or oily residue.

ADVANTAGES

- Fast Drying
- Emulsion safe
- High solvency
- Low Odor
- High load capacity to reduce usage
- Mesh Safe

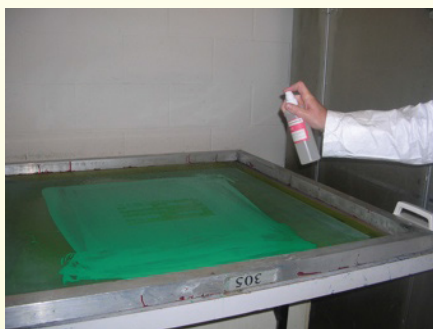

Quick Tip:

To cut down on the number of rags it takes to clean a screen, use a non absorbent scrub pad to liquify the ink and a squeegee to pull all the ink to one end of the screen and wipe up with one or two rags.

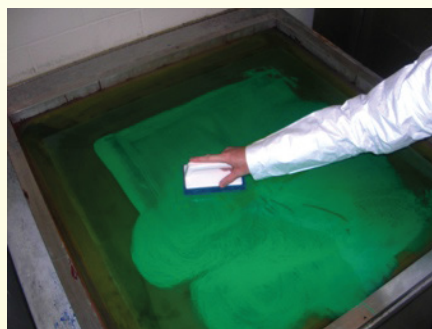

APPLICATION

First card excessive ink from the screen.

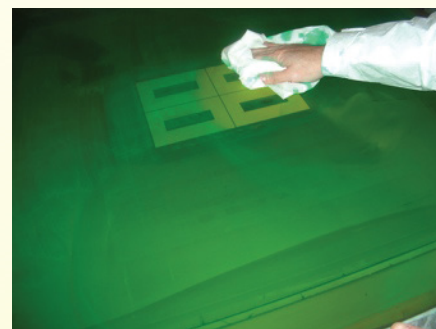

72-A can be applied manually with a rag, spray bottle, or pneumatic pump systems.

Step 1. Spray 72-A on squeegee side of screen.

Step 2. Scrub ink with a non-absorbent pad until liquified.

Step 3. Use rags or towels to wipe up ink residue. Re-apply to clean up ink residue in image area.

Packaging

1 gallon

5 gallon pail

30 gallon drum

55 gallon drum
