TRE PONTI® THE ORIGINAL

Tre Ponti is an Italian brand leader in the pet industry.

The company is run by Mr. Cecconato who, in 2007, invented and patented the **Easy Fit harness** with adjustable strap and buckle closures. Still today, this is one of our best-selling products, and the reason is simple: it is comfortable, light and with a unique and innovative design.

Nowadays, Tre Ponti is a registered trademark in over 70 countries worldwide.

Our success is due to 100% made-in-Italy **artisan craftsmanship**, with extreme attention to every seam, intensely focused on creating a **high-quality** product and using only the finest, carefully **selected materials**.

The result is a modern and durable product conceived for the comfort of our pets. From the technical material of our classic models to the softness of our mesh lines, to the lightness of all of our harnesses: Tre Ponti has a perfect fit for cats, small and large-sized dogs and can also fit other pets, like bunnies and piglets.

Our product is easy to copy, but hard to emulate, since every single harness is conceived in every detail to be the most ergonomic and light, but also strong and functional. Love and passion for our furry friends are what distinguish Tre Ponti from other brands and what makes possible to improve and develop new products that are entirely **Made in Italy**.

“Quality and originality are what make Tre Ponti unique.”

Pierantonio Cecconato

EASY FIT - CLASSIC

Code: T100

Closure: Adjustable strap

Trim: Reflective

Composition: Double coated fabric

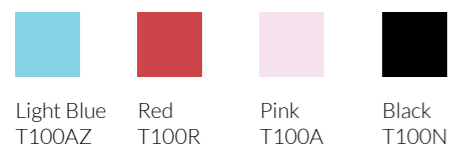

Specifications: Suitable for small-sized dogs, cats, and small-sized pets that do not tend to pull. It is easy to put on and remove; hypoallergenic material, waterproof, durable, with a unique and refined design. Made in Italy. The reflective trim makes the harness ideal for night walks or low-light conditions.

Please note: Check regularly the condition of the adjustable strap; it is better to remove the harness or avoid leaving the strap loose when the pet is resting or playing.

HIGH VISIBILITY SAFETY BANDS

Material: Prismatic PVC band with Ultramate Velcro

Specifications: These bands come in different sizes and can be used for night walks, or in low-light conditions. They can be wrapped around your pet's paws, neck, or worn the owner's arms.

You can also attach them to backpacks, jackets, bicycles, and many other things.

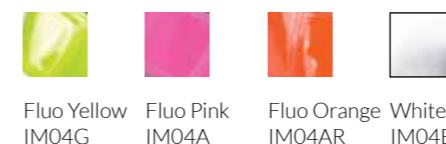

You can adjust the size by cutting any unnecessary length off with a simple pair of scissors.

Set of 4 high visibility bands: 2 small + 2 large bands.

Size chart:

Small 24,8 x 3 cm
Large 55 x 3 cm

Colours:

VELCRO STRAPS FOR HARNESES

Material: PP fabric + Velcro

Specifiche: This band is suitable for large-sized dogs. Apply the Velcro strap around the dog's harness chest band and fix it to the girth strap.

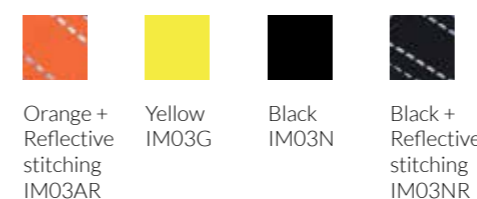

This durable strap takes pressure away from the dogs' neck and transfer it to their chest, so that if the dogs pull, they are being held back by their body rather than their neck.

The strap can be easily attached and adjusted to the harness thanks to its Velcro closure.

Size chart:

27 x 5,2 x 5 cm

Colours:

TRE PONTI ADJUSTABLE STRAP

Specifications: tubular strap, 100% certified polyester, made of high tenacity threads.
Made in Italy.

Please, note: Remember to constantly check the strap from possible wear or bites.
Always remember to press well the plastic cord lock in order to prevent it from rubbing against the strap.

If the adjustable strap breaks or needs to be changed, please replace it with a strap of the same kind and in the same way as the original one; do not make a simple loop.
You can easily find our Tre Ponti tutorial to replace the strap on YouTube.
You can find our straps for free at any authorized Tre Ponti store.

WARNING

Tre Ponti harnesses, especially the Mesh collection, may vary by cm from the size chart since our products are handmade.

Always put the harness correctly on your pet. It must perfectly fit your pet's body size; the back part of the harness should never be too close to the armpit, but at a distance of 3-4 cm.

Do not wash Tre Ponti products with harsh detergents; wash them with neutral soap and water.
Tre Ponti products shall be properly used: do not bite, cut, or scratch; if a part results to be worn out or damaged, please replace it since the company is not liable for damages to animals, people or things.

Metal parts preservation: If both harnesses and leashes get in contact with salt or dirty water, please wash their metal parts straight away with flowing clean water, in order to prevent possible rust or corrosion.

HOW TO CHOOSE THE RIGHT SIZE?

Always keep into account the weight and chest girth of the pet.

To choose the right size of the harness, please consult the size chart on our websites.

Chest girth must be measured at a distance of 3-4 cm from the armpit.

Easy Fit harnesses with adjustable strap closures can be completely shortened and loosened to a maximum of 10 cm.

When choosing your pet's harness, please keep in mind the following tips:

- Make sure you know your pet's weight and chest girth before choosing the harness.
- If you have a growing puppy, we recommend to choose a model with the adjustable girth or strap since their bodies are still shaping. The important thing is to change size when the harness is clearly too small.
- For dogs with wide chests or unique body shapes – such as Pugs, Dachshunds or French Bulldogs – we recommend Tre Ponti models with adjustable girths.
- For dogs with a tendency to bite, we suggest harnesses with plastic buckle closure.
- For cats, bunnies and tiny dogs (such as Chihuahuas), we suggest harnesses with the adjustable strap.
