Troubleshooting

No power: Ensure your Ventura is charged and has enough power for use. Please note that your Ventura works while charging as well.

No sound: Ensure your Ventura is on. Ensure your Bluetooth device is on. If the volume of the Ventura is too low, adjust the volume to an appropriate level.

Unable to connect: Turn off your Ventura and turn it back on. Your Ventura will go into pairing mode. Select 'Ventura Headphones' from the list on your Bluetooth device to reconnect.

Poor sound quality: Ensure placing your Ventura and your Bluetooth device in a range of 33ft (10 meter) sensing distance. Accordingly, be sure to check that there are no barriers that would block the signal.

Warranty

This product (including any accessories included in the original packaging) as supplied and distributed in new condition, is warranted by TRNDlabs to the original consumer purchaser, against defects in material and workmanship ("Warranty") as can be found on www.trndlabs.com.

Please read the safety information carefully to ensure your personal safety and prevent property damage.

Fire and electric shock hazard

- Do not expose your Ventura to extremely high or low temperatures.
- Do not leave your Ventura in direct sunlight for extended periods of time.
- Do not leave your Ventura near open flames such as cooking burners, candles, or fireplaces.
- Do not block any openings which serve as a ventilation function.

Battery/charger hazard

- Do not dispose your Ventura to fire. The battery could explode causing fatal injuries.
- Charge the battery exclusively in accordance with the user manual instructions provided with your Ventura product package.
- Do not attempt to disassemble the Ventura's charger or force open the built-in battery because this may result in an electric shock.
- Do not clean your Ventura while it is being charged. Always unplug the charger first before cleaning your Ventura.

7

Automobile accident hazard

- Do not store your Ventura or any of its accessories near or over your automobile's airbag because serious injury may result in case of airbags deployment.

Caution

- Leather is a natural material and is therefore subject to change over time and with daily use. Irregularities in the consistency and depth of the color should not be considered a fault but an inherent to the natural beauty of leather products. Changes in colors are thus normal and while occasional exposure to water is not a problem for leather, leather and your Ventura headphones are not waterproof!
- Exposure to high volume sound levels and excessive sound pressure may cause temporary or permanent damage to your hearing. Although there is no single volume setting that is appropriate for everyone, you should always use your Ventura with the volume set at moderate levels and avoid prolonged exposure to high volume levels.
- Do not use abrasive cleaners to clean your Ventura as that could cause scratches or damage.
- Do not bring your Ventura into contact with any sharp objects as that could cause scratches or damage.
- Do not insert anything into your Ventura unless otherwise specified in the user instructions. Inserting foreign objects into your Ventura might cause damage to the internal components.
- Do not attempt to repair, modify, or disassemble your Ventura yourself, it does not contain any user-serviceable components.
- Do not attempt to replace your Ventura's battery, it is built-in and is not changeable.
- Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas.
- Turn off your Ventura prior to boarding an aircraft. Do not use your Ventura inside an aircraft unless other bluetooth devices are allowed on the flight.
- Dispose of your Ventura and your Ventura's battery according to local regulations. Do not dispose the battery with regular household waste.
